

WHY ELECT A C. F. & I. MAN? SKS COST

aggressive Candidate Hurts
"Alliance" Charges at
Carlson
ADVILLE IS ENTHUSIASTIC

lyte Warfare Must Stop,"
Says Speaker; "Must
Have Justice"

ial to The Gazette.

ADVILLE, Oct. 14.—The Progress party's law, order and justice platform was applied to the present industrial situation in Colorado by Edward Carlson, Progressive candidate for governor, in a speech here tonight. He was heard by a large crowd, and was unusually attentive, and remarks frequently brought forth applause.

His meaning was the most significant that the Progress party has in Colorado this campaign, with exception of those added by J. J. Allen, candidate for governor, and J. J. Adams, candidate for secretary of state, who were here last night. The speaker was filled to the brim in the gallery.

"I have heard that the Progress party is a bad lot," said Carlson, "but after reflecting on the matter, I have changed my mind. I am now convinced that the Progress party is the only party that can save this state from the clutches of the C. F. & I. men."

Carlson then turned to the subject of the C. F. & I. men, and said: "I am very much gratified with the expression of your attitude. Will keep you fully informed."

He then turned to the subject of the C. F. & I. men, and said: "I am very much gratified with the expression of your attitude. Will keep you fully informed."

GOV. HUNT WON'T SEND TROOPS TO MEXICAN BORDER

NOT TO INTERFERE
Highly Colored Reports of
Situation at Naco Made
to Executive

WASHINGTON, Oct. 14.—A telegram from Governor Hunt of Arizona tonight announcing that no movement of the state militia to the Mexican border had been authorized, and expressing the governor's desire to cooperate in avoiding further complications of the situation on the border was received with much relief by President Wilson and Secretary Garrison. The message, which concluded a day of telegraphic interchanges on the subject, was addressed to Secretary Garrison, and was as follows:

"I appreciate your courteous telegram and thank you for advice conveyed. Both the president and yourself may feel wholly assured that I realize the gravity of the Mexican situation as an international problem, and my sole desire is to cooperate in avoiding further complications, and at the same time accord all possible protection for Arizona's citizens and property. No movement of the state militia has been authorized. I shall communicate with you as the occasion requires and feel sure that such advice as you may extend at intervals will greatly assist me in allaying excitement over existing danger."

Secretary Garrison at once replied as follows:

"Your message received. Am very much gratified with the expression of your attitude. Will keep you fully informed."

Warned of Grave Consequences.

During the day the secretary at the direction of President Wilson had telegraphed Governor Hunt pointing out the danger of divided responsibility should the state troops go to the border. It was indicated unofficially later that if the Arizona governor finally did send troops to the border, the federal government would be obliged to take action to prevent the state troops from doing so.

Secretary Garrison telegraphed in reply that reports from General Bliss and the commanding officer at Douglas, Ariz., said no one had been injured and that stray bullets were falling on the American side of the line. Every precaution was taken to guard American interests, he said, and additional troops could not be utilized.

The secretary warned the governor of the grave consequences that might follow the sending of militia to the border and called attention to the manifest propriety of not embarrassing the president as to the international situation.

Carlson Plot, Villa Says.

"The president again requested me to add, to emphasize in my dispatch to you the gravity of the situation, the fact that he is doing everything that properly can be done and his earnest desire that you should abstain from complicating and embarrassing the situation."

The secretary said he was in no doubt that "highly colored and exaggerated reports" of conditions along the border were reaching the governor, adding that true accounts could be obtained by communicating with the army officers commanding at Naco and Douglas.

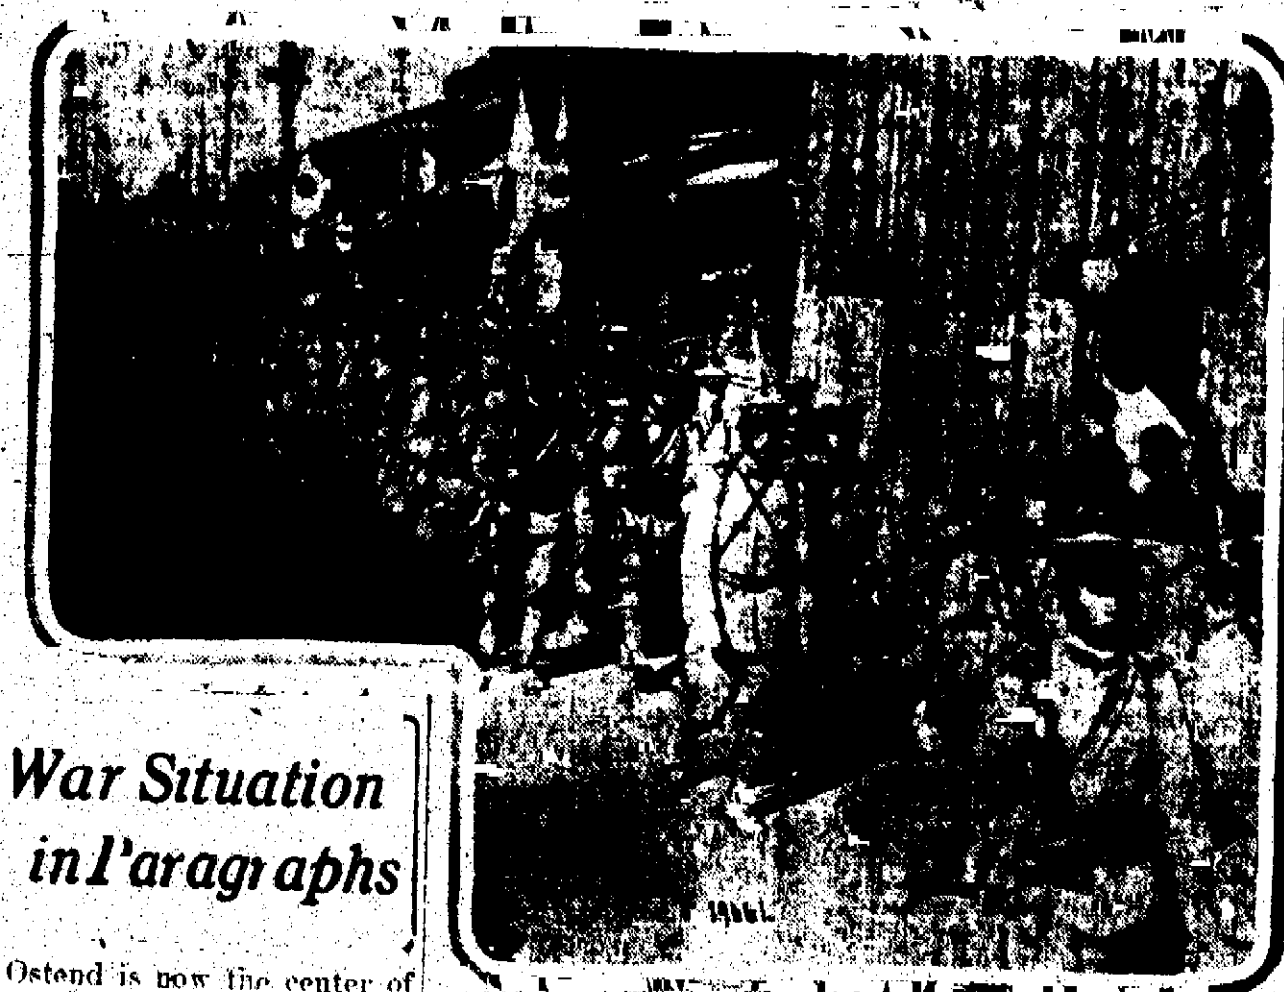

Frank S. Thomas, one of General Villa's representatives here, filed a protest with the state department today, declaring that the Carranza forces at Naco had deliberately "backed up to the American line for the double purpose of escaping to the United States if occasion demands, and also to invite attack so that a few bullets will unavoidably fall on American soil." He charged that Carranza's forces under General Hill were part of "an attempt to provoke intervention on the part of the United States."

**Wilson Deserves
Supreme Credit
for Banking Law**

RICHMOND, Va., Oct. 14.—Representative Carter Glass, one of the authors of the nation's new banking law, told members of the American Bankers' association today that President Wilson deserved supreme credit for the new law. He characterized it as a "legislative miracle."

Mr. Glass said the discretionary power of the secretary of the treasury to deposit and transfer government funds, which was criticized today in the address of President Reynolds of the bankers, had been passed by the secretary for the last 50 years.

FIRST PICTURE OF JAPANESE TROOP MOVEMENTS

War Situation in Paragraphs

Ostend is now the center of interest in the contest being waged in the western theater of war. Reports indicate that there is virtually no obstacle in the way of the German advance on Ostend and other ports in the northwest of Belgium.

Scores of wounded soldiers are being brought into Ostend from Ghent. It is reported that the allies and the Germans engaged in a serious battle near Ghent on Monday. It is said that the German forces were far superior in numbers, and that the allies were obliged to withdraw toward the west. This removed the stumbling block in the way of German progress toward Ostend.

A state of panic exists among the inhabitants of Ostend, for the Germans are known to have a large force with 20 miles of the city. As fast as ships can be provided the residents are fleeing to England, escape by land having been cut off on all sides.

The extreme right wing of the main German army has been forced to fall back before an assault by the allies, and reports indicate that the invaders will encounter strong opposition in attempting to extend their right wing to the northern French ports. Only recently the German cavalry had progressed as far west as Hazebrouck, but now, according to the French war office, the front of the battle extends from La Bassée through Estaires to Baillou on the Belgian frontier. Across the border Ypres has been occupied by the allied forces. This indicates a decided gain for the allies.

Outside of this there is no important modification in the situation in the western theater, so far as indicated by reports couched in general terms received by the French war office from the front.

In the eastern theater, the Russians October 13 successfully pressed back the German forces on the left bank of the Vistula along the road leading from Warsaw to Ivangorod, according to an official communication issued by the Russian general staff. Fighting continues to the south of Przemyśl, Galicia, says the statement.

An official announcement given out in Vienna says that the Austrian troops advancing toward Przemyśl have repulsed the encircling Russian troops in such a way that the enemy is now able to maintain its position only before the eastern front of the fortress. It is said that several military bridges over the San broke down during the Russian retreat and many of the Russians were drowned. Fighting continues east of Chyrow, Galicia.

From Nish, Serbia, comes the official statement that Sunday night the Austrians made two attacks on the extreme right wing of the Serbian front between Srpsnik, Bosnia, and Bosnitsa, Serbia.

25,000 FRIGHTENED PEOPLE HUDDLE ON DOCK AT OSTEND FEARING ARRIVAL OF GERMANS

Slightest Mention of Bombardment Throws Hysterical Mass Into Wild Panic

OSTEND, Oct. 14.—Via London, Oct. 14.—12:10 a. m.—Ostend's fate hangs in the balance. The government has left King Albert and the main military quarters left Tuesday, and 20,000 panic-stricken people await the action of the Germans, who are known to have a strong force within 20 miles of the city.

The inhabitants are fleeing as fast as ships can be provided to carry them to England. Hospitals were emptied today and the docks were lined with injured soldiers. Hundreds were carried on litters, while others were taken away on stretchers.

The wounded were taken to the hospital provided for the beleaguered city, while 25,000 struggling people were massed upon the docks and the residents attempting to find places on the refugee ships. A German Taube aeroplane flew over the harbor and struck terror to those below. Many of whom had come here from Antwerp and who feared the airplane might drop bombs on the docks and the great glass sheds which covered the railway and steamer terminals. The Belgians guarding the dock opened fire on the airplane and continued the fusillade for 10 minutes. This created still greater consternation among the thousands of women and children, many of whom had sat for three days on the cement floor of the great terminal sheds, their nerves at the breaking point.

Escape is cut off from all sides by the German forces.

MUNSTERBERG OFFERS RESIGNATION TO PRES. LOWELL OF HARVARD

University Cut Off From a
Bequest of 10 Millions if
Professor Stays

CAMBRIDGE, Mass., Oct. 14.—Hugo Munsterberg, professor of psychology at Harvard university, tonight said that he had offered his resignation to President Lowell. This action is the result of a letter sent by Maj. Clarence Wiener of London to the overseers of the college, to the effect that he would change a will by which Harvard would receive \$10,000,000 unless Professor Munsterberg were dismissed from the faculty.

"Unwarranted progessman utterances by the famous psychologist in connection with the war" were given by Major Wiener as the reason for his attitude.

"I sent my resignation to President Lowell so that there might be no embarrassment in the matter and that the faculty might be left free to act without having to consider my feelings," said Professor Munsterberg.

President Lowell refused to discuss the situation.

The Harvard corporation is expected to take up Major Wiener's letter and Professor Munsterberg's resignation next week.

Major Wiener, a member of the class of 1906 at Harvard, is the proprietor of the Wiener News Agency, Strand, London, England. He was born in Philadelphia in 1878. He attended Harvard one year, going to Cuba in 1897. During the next year he was on the staff of Gen. Frederick D. Grant in Porto Rico. In 1899 he went to South Africa as a war correspondent. Subsequently he saw stirring service there and organized a band of scouts. He was eight times wounded in South Africa. Major Wiener has been reported to be immensely wealthy.

land and thousands still gathered temporarily on the docks when the last relief ship left late this afternoon. No steamers leave Ostend at night because of danger from mines. Still the crowds wait on the piers, awaiting the dawn and more ships. Even the refugees who managed to find deck space on the crowded transports were not relieved of the terrible strain under which they have been laboring. For the watchful Taube flew over the steamers, observing their movements as they sailed out of the harbor.

The aeroplane did not drop bombs, but it was a constant reminder of the danger both civil and military airplanes were so narrowly missed by exploding shells, that the Belgians charged that the Germans were aiming at the hospitals.

Last night was one of terror to the residents of Ostend and the thousands of refugees fleeing before the German invasion. Wounded soldiers were brought here by the score from Ghent. It is reported that they were engaged Monday near Ghent in a serious battle with the Germans. The allies are said to have had a small force against a large German force and were obliged to withdraw toward the west. Consequently there is virtually no obstacle to the German advance on Ostend.

Business at Standstill.

Firing in the direction of Ghent was heard plainly in Ostend on Monday and Tuesday. The terrified refugees who were at the siege of Antwerp, blanched as they listened to the bombardment and increased the fear among the residents of Ostend by describing the horrors attending the fall of that fortress.

Most of the business houses in Ostend closed yesterday and professional men, merchants and hotel keepers joined the ranks of those who refused to leave the water front for fear of being placed in the ever-growing line of men, women and children clamoring for a chance to escape.

All taxicabs and cab horses were taken by the army long ago so there was little means of transportation. The tram cars were commandeered by the hospitals and civilians had little chance to ride. The hotels near the quay which remained open were crowded with refugees who had money and had begged for the opportunity to rent even a chair.

Tuesday night brought mistaken reports that the Germans would enter Ostend on Wednesday at dawn with the result that few persons in the city slept. Before dawnbreak every street of Ostend was alive with Belgians making their way to the waterfront. Hundreds of fishermen took their families and friends away in their small boats which sailed out of the shipping basin in a steady stream loaded down with frightened women and children carrying their personal effects wrapped in table cloths and blankets.

Women and Children Trampled.

The failure of the Germans to arrive at daybreak afforded only a slight relief to the anxious crowds. Rumors were current that the German cavalry was less than 20 miles away and the appearance of the Taube in the sky was taken as an indication that the Germans were perfecting their plan for entering the city.

Practically no government of any sort remains at Ostend. The departure of King Albert and military headquarters left only the civil guard and policemen who are attempting to preserve order but there is lack of direction as the burgomaster, head of the municipal government, has also left.

The roads mass the work of embarking the refugees more difficult. Women and children are trampled in the stampede. Bundles of clothes, trunks and bags are scattered everywhere in confusion preventing the free movement of the crowds.

"Women and children first" is the slogan.

(Continued on Page Three.)

GERMAN RIGHT IS DRIVEN BACK TO BELGIAN BORDER BY ASSAULTS OF ALLIES

Invaders Will Meet Stubborn Resistance
in Attempt to Extend Wing From Ostend
to Northern Ports of France; Engage-
ment Probably Will Bring Decisive Result

RUSSIANS EVACUATE LEMBERG AND ARE WITHDRAWING FROM PRZEMYSL

German Reinforcements Being Sent to East Prussia
by Way of Baltic; Turkey and Portugal Will Soon
Be Drawn Into War; Czar May Withdraw Forces
From Galicia to Meet Austro-Germans in Poland

LONDON, Oct. 14.—9:30 p. m.—While it is fully expected the Germans will reach Ostend and other ports in the northwest of Belgium, if they have not done so already, they will meet a stubborn resistance in their attempt to extend the right wing of their main army through Pas de Calais to the French northern ports. In fact, they have fallen back in this region in the face of the allies' offensive.

A few days ago the German cavalry were fighting as far west as Hazebrouck and Ghent, but today, according to the latest official communication issued this afternoon, the front of this title extends from La Bassée through Estaires to Baillou on the Belgian frontier, 20 miles across the border the allies have occupied Ypres. This is a distinct gain for the allies, and shows that the German attempt to work around their left has failed, the German right being bent back toward Lille and Courtrai, both of which places the invaders hold with strong forces.

ENGLAND IS NOTABLY WILLING TO BRING DECISIVE RESULT

It is here the heavy blow, which both sides hope will bring about a decisive result in the long drawn out battle, will be struck. It is for this reason that the Germans will be able to make their way to Ostend, although even there some troops have been left to inflict what damage they can before joining the larger body further south.

The responsibility has prohibited any mention of the operations to the north of Arras, which probably is responsible for the belief that the allies have prepared what one military critic declares is "a smashing blow, which will be the more crushing in its effect the longer it is delayed."

Of the recent fighting elsewhere, the French communication simply says that the operations are proceeding normally on the left wing as far as the allies are concerned. The allies' progress in the Berry-au-Bac region is confirmed and on the right wing there is nothing new.

For the first time, however, the French general staff takes notice of and denies some claims put up by the Germans. It is denied that two French cavalry divisions have been destroyed and it is asserted, on the other hand, that the aviators with the French cavalry inflicted heavy losses on the German cavalry. It is declared also that the Germans have not come into touch with the fortress of Verdun and that attempts to do so have failed, while in their effort to cross the Meuse at St. Mihiel they were outflanked.

GERMANY CAN CALL FIVE MILLION MEN IF NECESSARY

German reports coming through Rome say that the real struggle is only just beginning and that, if necessary, 5,000,000 men can be called upon for compulsory service, while many volunteers also are available.

Vienna makes the claim that the Russians have evacuated Lemberg, while the Russians deny a similar report that they have given up the siege of Przemyśl. It would not surprise military men if the Russians withdrew from Galicia to concentrate all their forces for the supreme struggle which, with the advance of the Austro-German armies into Poland, is now upon them, along the Vistula river from south of Warsaw to their southern boundary.

Nothing has come through concerning the battle on the East Prussian frontier, but the activity of the German fleet in the Baltic and Gulf of Finland may preface the arrival of German reinforcements, which it was reported some days ago were being embarked at German Baltic ports.

A German squadron, the flagship of which is flying the flag of Prince Henry of Prussia, has been cruising in the vicinity of Aland island, and only a day or two ago the Russian cruiser Pallada was torpedoed by German submarines, two of which were lost. The presence of the German ships probably would prevent the Russian warships from coming out to interfere with transports, should there be any about.

TURKEY AND PORTUGAL MUST SOON ENTER WAR

There was every indication today that Turkey and Portugal would be drawn into the war. Portugal has not

declared war on Germany, as was reported earlier in the day, but a partial mobilization of her forces will be ordered tomorrow, and martial law has been declared in Portuguese cities.

Portugal has an alliance with Great Britain, but this is purely a defensive one, and was negotiated for the protection of Portugal, and not with the idea that Portugal ever should be called upon to come to the assistance of Great Britain. However, the sympathy of that country is known to be with the allies, and she has had some small difficulties with the Germans in Africa. A short time ago a German officer, suspecting that the Portuguese were instigating unrest among the German natives of East Africa, crossed into Portuguese territory and killed a Portuguese sergeant and four natives.

The former German colonies in Africa and Brazil, which should be returned to Turkey, may be responsible for involving Turkey in the war. The ships were ostensibly sold to Turkey, they are still officered and manned by Germans, and have been refusing off the Romanian and Bulgarian coasts of the Black sea, where the Russian fleet has been for some days. Should the Russian warships sight the German and British vessels, an engagement would be possible.

General Botha, the premier of the Union of South Africa, has sent a telegram to deal with Colonel Maritz and the rebels under his command. According to an official telegram from the South African government, "the rebellion is not so serious as was feared."

CZAR'S FORCES LESSEN EFFORTS AT PRZEMYSL

Also Withdraw Part of Troops From
Lancut Before Austrian Advance.

Official Report Claims

MANCHESTER, Mass., Oct. 14.—The Austro-Hungarian embassy here tonight announced receipt of an official wireless message from the home government, as follows:

"Our advance in Galicia has forced the Russians to lessen their efforts against Przemyśl. Yesterday, during our bombardment, greatly weakened the Russians, who began to withdraw part of their forces at Lancut. Our advancing columns met strong Russian forces fighting with which still is continuing. Kuznetsov on the San has been retaken by us."

In the Carpathians the Russians are fleeing from the Marmaros district at Botosce.

"Polish refugees in Vienna give information that the Russians, after the occupation of Lemberg, sent the famous Polish library, housed in the Ossolinski institute, to St. Petersburg. The most prominent public edifices in the town have been undermined, and the Russians have declared their intention to blow them up as soon as they are forced to leave the town. This news has created consternation and anger in Polish circles."

MORGAN WANTS TO SELL ALASKAN ROAD TO U. S.

Discusses Matter With Secretary Lane, Who is Awaiting Report of Engineers

WASHINGTON, Oct. 13.—An offer to sell or lease the Copper River & Northwestern railroad to the government for use in connection with the railway the government is preparing to build in Alaska, was made today by J. Pierpont Morgan to Secretary Lane of the interior department. The secretary replied that pending a report from the board of engineers now surveying proposed routes in the territory, he was unable to consider any proposition for acquisition of existing lines.

At the head of the New York banking house of Morgan & Co., Mr. Morgan represents the control of the Copper River & Northwestern railroad, which is owned by what is known as the Alaska syndicate, a pool in which the Morgan and Guggenheim interests are the principal factors.

The road is 186 1/2 miles long and extends from Cordova, its southern terminus on Prince William sound in a northeasterly direction to Kennicott, the location of the Bonanza copper mine. It constitutes the outlet to the seacoast of the copper mined by the Guggenheim interests in Alaska.

It passes within 20 miles of the rich Bering coal field on the east, and it is said a branch line easily might reach the Matanuska coal fields on the west.

Padded moving vans. The Pikes Peak Transfer and Storage Co. Phone 100.

The appointment rather than the election of the mayor is proposed for American cities by the National Municipal league now planning its annual meeting to be held at Baltimore, Md. In other words, the league advocates that all cities employ city managers instead of electing mayors.

J. H. GARDNER SHOE CO.**ASSASSIN OF ARCHDUKE****CHARGED WITH TREASON**

Indictment Against Gavrie Princip and Accomplices Read at Sarajevo

Sarajevo

LONDON, Oct. 13.—12:10 p. m.—Reuters Telegram company has received a dispatch from Sarajevo, Bosnia, saying the indictment against Gavrie Princip, the assassin of Archduke Francis Ferdinand and his wife, together with 21 of his accomplices, has been read there.

The men are charged with high treason. Three other persons have been charged with having concealed weapons with which the outrage was perpetrated.

The indictment deals at length with the Serbian society called Narodna Odbrana in Belgrade which organized the conspiracy with methods by which the bombs and weapons were smuggled into Bosnia and related how the conspirators at Sarajevo recruited their accomplices, distributed their weapons and took their places on the street to await the coming of the archduke party.

Princip under examination admitted that with a second bullet he intended to kill Field Marshal Oskar Potiorek, the governor of Bosnia, but that he used it for the archduke.

Finally the indictment deals with the motive of the outrage and depicts the machinations for a greater Serbia, in quarters extending as far as the royal court.

STEVENSON ILLINOIS SECRETARY OF STATE

SPRINGFIELD, Ill., Oct. 13.—Governor Dunne today appointed Louis G. Stevenson of Bloomington, president of the state board of pardons, to be secretary of state to fill out the unexpired term of Harry Woods, who committed suicide Sunday.

GERMAN RIGHT IS DRIVEN BACK TO BELGIAN BORDER BY ASSAULTS OF ALLIES

**Invaders Will Meet Stubborn Resistance
in Attempt to Extend Wing From Ostend
to Northern Ports of France; Engage-
ment Probably Will Bring Decisive Result**

RUSSIANS EVACUATE LEMBERG AND ARE WITHDRAWING FROM PRZEMYSL

German Reinforcements Being Sent to East Prussia by Way of Baltic; Turkey and Portugal Will Soon Be Drawn Into War; Czar May Withdraw Forces From Galicia to Meet Austro-Germans in Poland

LONDON, Oct. 14.—9:30 p. m.:—While it is fully expected the Germans will reach Ostend and other ports in the north-west of Belgium, if they have not done so already, they will meet a stubborn resistance in their attempt to extend the right wing of their main army through Pas de Calais to the French northern ports. In fact, they have fallen back in this region in the face of the allies' offensive.

A few days ago the German cavalry were fighting as far west as H-sebrouck and Cassel, but today, according to the French official communication issued this afternoon, the front of this battle extends from La Bassée through Estaires to Bailieu on the Belgian frontier, while across the border the allies have occupied Ypres. This is a distinct gain for the allies, and shows that the German attempt to work around their left has failed, the German right being bent back toward Lille and Courtrai, both of which places the invaders hold with strong forces.

ENGAGEMENT PROBABLY WILL BRING DECISIVE RESULT

It is here the heavy blow, which the allies hope will bring about a decisive result in the drawn-out battle, will be struck. It is this reason that the Germans will be able to make their way to Ostend, although even some troops have been left in order that damage they can inflict.

[illegible]

Of the recent fighting elsewhere, the French communication simply says that its operations are proceeding normally on the left wing as far as the Cuse, that the allies' progress in the Berry-aux-Bois region is confirmed and on the right wing there is nothing new.

For the first time, however, the French general staff takes notice of and denies some claims put up by the Germans. It is denied that any French cavalry division has been destroyed and it is asserted, on the other hand, that the aviators with the French cavalry inflicted heavy losses on the German cavalry. It is declared also that the Germans have not come into touch with the fortress of Verdun and that French warships were responsible for involving Turkey. Although these ships were intended solely for Turkey, they are still different and different from the Germans, and have been cruising off the Roumanian and Bulgarian coasts.

The Black sea, where the Russian fleet has been operating, should have the Russian warships sailing to the Bosphorus and Brest-Litovsk engagement, which is possible.

General Botha, the premier of the Union of South Africa, has sent orders to deal with Colonel Maritz and the rebels under his command. According to an official telegram from the South African government, the rebellion is not so serious as was feared.

**CZAR'S FORCES LESSEN
EFFORTS AT PRZEMYSL**

Also Withdraw Part of Troops From
Lancut Before Austrian Advance.
Official Report Claims

MANCHESTER, Mass., Sept. 10.—The Austro-Hungarian embassy here tonight announced receipt of an official wireless message from the home government, as follows:

"Our advance in Galicia has forced the Russians to lessen their efforts against Przemyel. Yesterday morning our commandant at Przemyel requested the Russians to begin to withdraw part of their forces, at Przemyel."

The inhabitants are fleeing as fast as ships can be provided to carry them to England. Hospitals were emptied today and the docks were filled with injured soldiers. Hundreds were carried on litters, while the U.S. Navy, of danger from mines. Still the crowds wait on the piers, awaiting the boats and more ships. Even the refugees who managed to find deck space on the crowded transports were not released of the terrible strain under which they have been laboring for the last 48 hours. Finally, after the steamships, aircraft carriers and other vessels arrived out of the harbor, they began to take the wounded to safety. The aeroplanes, flying about 5,000-

hundreds of women and children, many of whom had sat for three days on the cement floor of the great tent, in animal sheds, their nerves at the breaking point.

LOWELL OF HARVARD
University Cut Off From a
Bequest of 10 Millions if
Professor Stays

change a will by which Harvard would receive \$10,000,000, unless Professor Untermyer were dismissed from the university.

"Unwarranted, preposterous utterances" the famous psychologist in connection with the war were given by Professor Wiener as the reason for his resignation.

Of fishermen took their families and friends away to their small boats, which sailed in the discipline basin. In a short time, the boats were crowded with fishermen, women and children, carrying their personal effects wrapped in plastic cloths and blankets.

Women and Children Trampled.
The failure of the Germans to arrive

The Harvard corporation is expected to take up Major Wien's letter and to make arrangements in the matter and that a faculty might be left free to act without having to consider any feelings of Professor Minterberg.

President Lowell refused to discuss the situation.

The Harvard corporation is expected to take up Major Wien's letter and to make arrangements in the matter and that a faculty might be left free to act without having to consider any feelings of Professor Minterberg.

President Lowell refused to discuss the situation.

Major Wiener, a member of the class of 1900 at Harvard, is the proprietor of the Wiener News agency, Strand, London, England. He was born in Philadelphia in 1878. He attended

ward one year, going to Cuba in 1977. During the next year he was the staff of Gen. Frederick D. Grant at Port of Spain, Guyana, where South Africa was a war correspondent. Subsequently he saw stirring service there and organized a band of scouts. He was eight times wounded in South Africa. Major Clesner has been "re-elected" to his position.

(Continued on Page Three)

A few days ago the German cavalry were fighting as far west as Hesebrouck and Cassel, but today, according to the French official communication issued this afternoon, the front

of this battle extends from Le Rasseo through Estaires to Bailieu on the Belgian frontier, while across the border the allies have occupied Ypres. This is a distinct gain for the allies, and shows that the German attempt to work around their left has failed, the German right being bent back toward Lille and Courtrai, both of which places the invaders hold with strong forces.

ENGAGEMENT PROBABLY WILL BRING DECISIVE RESULT

It is here the heavy blow, which the allies hope will bring about a decisive result in the drawn-out battle, will be struck. It is this reason that the Germans will be able to make their way to Ostend, although even some troops have been left in order that damage they can inflict.

[illegible]

Of the recent fighting elsewhere, the French communication simply says that the operations are proceeding normally on the left wing as far as the Cuse, that the allies' progress in the Berry-aux-Coteaux region is confirmed and on the right wing there is nothing new.

For the first time, however, the French general staff takes notice of and denies some claims put up by the Germans. It is denied that two French heavy divisions have been destroyed and it is asserted, on the other hand, that the invaders with the French cavalry inflicted heavy losses on the Germans. The German general staff, on the other hand, says that the French warships were the main reason for the German successes in the Black Sea, by involving Turkey. Although these ships were destroyed and in Turkey, they are still floating and in the hands of the Germans, and have been cruising in the Roumanian and Bulgarian coasts of the Black sea, where the Russian fleet has been for some time, without

an cavalry. It is declared also that the Russians have not come into touch with the forces of Vardan and that attempts to do so have failed, while their effort to cross the Mousa-at-Mihlii were frustrated.

GERMANY CAN CALL FIVE MILLION MEN IF NECESSARY

BERLIN, December 12.—The

the Russian warship sighted the English and British an agreement being a possibility.

General Barba, the commander of the United South Africa, has sent orders to deal with "colored" men and rebels under his command. According to an official telegram from the South African government, the rebellion is

German troops coming through
the city, that the real struggle is only
at beginning and that, if necessary,
100,000 men can be called upon for
compulsory service, while many volun-
teers also are available.

Vienna makes the claim that the
Russians have evacuated Lemberg.

Also Withdraw Part of Troops From
Lancut Before Austrian Advance.
Official Report Claims

MANCHESTER, Mass., Sept. 10.—The Austro-Hungarian embassy here tonight announced receipt of an official wireless message from the home government, as follows:

"Our advance in Galicia has forced the Russians to lessen their efforts against Przemyel. Yesterday morning our commandant at Przemyel requested the Russians to begin to withdraw part of their forces, at Przemyel."

German squadron, the flagship of which is flying the flag of Prince Heinrich of Prussia, has been cruising in the vicinity of Aland island, and only a few days ago the Russian cruiser "Albatross" was torpedoed by German submarines, two of which were lost. It is probable that German ships will be sent to the Baltic coast, and that the Russian fleet will be forced to retreat.

MORGAN WANTS TO SELL ALASKAN ROAD TO U. S.

Discusses Matter With Secretary Lane, Who is Awaiting Report of Engineers

WASHINGTON, Oct. 13.—An offer to sell or lease the Copper River & Northwestern railroad to the government for use in connection with the railway the government is preparing to build in Alaska was made today by J. Pierpont Morgan to Secretary Lane of the interior department. The secretary replied that pending a report from the board of engineers now surveying proposed routes in the territory he was unable to consider any proposition for acquisition of existing lines.

As the head of the New York banking house of Morgan & Co., Mr. Morgan represents the control of the Copper River & Northwestern railroad, which is owned by what is known as the Alaska syndicate, a pool, in which the Morgan and Guggenheim interests are the principal factors.

The road is 186 1/2 miles long and extends from Cordova, its southern terminus on Prince William sound in a northeasterly direction to Kennicott, the location of the Bonanza copper mine. It constitutes the outlet to the southeast of the copper mined by the Guggenheim interests in Alaska.

It passes within 30 miles of the rich Bering coal field on the east, and it is said a branch line easily might reach the Matanuska coal fields on the west.

Padded moving vans. The Pikes Peak Transfer and Storage Co. Phone 160. Adv.

The appointment rather than the election of the mayor is proposed for American cities by the National Municipal league now planning its annual meeting to be held at Baltimore, Md. In other words the league advocates that all cities employ city managers instead of electing mayors.

ASSASSIN OF ARCHDUKE

CHARGED WITH TREASON

Indictment Against Gavrie Princip and Accomplices Read at Sarajevo

LONDON, Oct. 13. 12:10 p. m. Reuters Telegram company has received a dispatch from Sarajevo, Bosnia, saying the indictment against Gavrie Princip, the assassin of Archduke Francis Ferdinand and his wife together with 21 of his accomplices, has been read there.

The men are charged with high treason. Three other persons have been charged with having concealed weapons with which the outrage was perpetrated.

The indictment deals at length with the Serbian society called Narodna Odbrana in Belgrade which organized the conspiracy with methods by which the bombs and weapons were smuggled into Bosnia and relates how the conspirators at Sarajevo recruited their accomplices, distributed their weapons and took their places on the street to await the coming of the archduchess.

Princip under examination admitted that with a second bullet he intended to kill Field Marshal Oskar Potiorek, the governor of Bosnia, but that he used it for the archduchess.

Finally the indictment deals with the motive of the outrage and depicts the machinations for a greater Serbia in quarters extending as far as the royal court.

STEVENSON ILLINOIS SECRETARY OF STATE

SPRINGFIELD, Ill., Oct. 13.—Governor Dunne today appointed Louis G. Stevenson of Bloomington president of the state board of pardons to be secretary of state to fill out the unexpired term of Harry Woods, who committed suicide Sunday.

How Much Dirt Is There In YOUR Home?

How can you tell? How can you tell who uses the old fashioned broom, carpet sweeper and dust cloth?

Sweep your carpets and rugs as thoroughly as you can get them "clean" according to "broom" standards, then go over them with a ROYAL SUCTION CLEANER.

The result will be a revelation—you'll be shocked—horrified.

There is a moral in this for you get a ROYAL now, and forget your housecleaning problem.

French
Generals Are Killed
on the Battle Field

LONDON, Oct. 14.—25 p. m.—The
exchange Telegraph company has
sent out a dispatch from Paris saying
General Marce, former governor
of the famous French military school
at Saint Cyr and one of the best known
of French generals, has been killed
in the fighting in the north of Arras.

RIS, Oct. 14.—5:10 a. m.—News
received in Paris today of the
death of General Rondon, commander
of the Third brigade of French Cavalry
in the fighting in the north of Arras.

CHICAGO, Oct. 14.—An order for
5,000 tons of steel for bayonets
was placed here today by the
French government. Another order
for 10,000 tons of steel for bayonets
was placed here today by the
French government.

Removes Hair Growths
Without Pain or Bother

(Modes of Today)
It is not necessary to use a painful
method to remove hair growths, for
a little delicate hand you can
remove the hair entirely free from
any destroyers. To remove hair,
a stiff paste with a little per-
oxide and water. Spread
on the hairy surface and in about
fifteen minutes the hair is gone.
To guard against
inflammation, be careful to get
advice.

AMERICAN CITIZENS ARE PRESSED INTO SERVICE IN ITALY

Naturalization Laws Are Not
Recognized by Italians;
Warning Issued

WASHINGTON, Oct. 14.—Consider-
able concern was manifested at the
state department today over the status
of American citizens, both native and
naturalized, who were caught in the
outbreak of the European war and drafted
for military service because they or their
fathers were born subjects of such
countries.

This has occurred in countries with
which the United States has no natu-
ralization treaties, and has called forth
this warning, issued to foreign-born
elements in the United States by the
department against visits to Europe
at this time.

The department of state has been
informed that persons born in this
country of Italian parents, when they
return to Italy, are held for military
service in that country. Although such
persons are born American citizens,
under the laws of this country, they
are also born Italian subjects under
Italian law, thus having a dual nation-
ality. For this reason, the Italian gov-
ernment claims their service for the
Italian army when such persons are
found in Italy.

No Treaty With Italy

The department is also informed of
numerous cases where Italians, who
have been naturalized as citizens of
the United States, and have subse-
quently returned to Italy, have been
held in that country for military
service. There is no treaty of naturaliza-
tion between the United States and
Italy, and, under Italian law, the natu-
ralization of an Italian subject as a
citizen or subject of another country
does not relieve him from the liability
of the performance of military service
in Italy.

The department has found itself
embarrassed in protecting the vari-
ous governments by the fact that the
United States has adhered to the doc-
trine that the child born to American
parents in a foreign country is an
American citizen unless he voluntarily
relinquishes the citizenship. The position
of Italy, France and many other
countries is that, when a citizen leaves
the fatherland without having ren-
dered military service, not only he, but
his male children are subject to arrest
for military duty upon their return to
the fatherland.

So far, it is said, the efforts of the
state department to obtain the release
of such persons have proved unavail-
ing, although they are being contin-
ued.

'WHY EFFECT A C. F. & I. MAN?' ASKS COSTIGAN

(Continued from Page One)
will be recruited, not from either side
to the conflict, but from the state's
best citizenship, and I shall lead the
forces in person.

"In my opinion, when you speak
justice is silent. I indicate that the
problem of the Progressive party in
Colorado and the nation is fundamen-
tally a problem of justice. We
must be just to the capitalists, just to
labor, just to business, just to the
farmer, just to the taxpayer, and just
to the consumer. The paramount is-
sue in this state this year is the in-
dustrial situation. This great conflict
still hangs in the balance, undecided.
It is the duty of the state government
to act as an unbiased referee in this
conflict. Would you elect to the gov-
ernment of this state, in this time of
great peril, a man who is a hireling
of the great corporations, which
constitute one of the parties to
that conflict? A man who is glad
in his heart to have the political support
of the Colorado Fuel and Iron com-
pany, and proud to feel that he is the
choice of Mr. Rockefeller, Colorado
representative, Mr. Bowers. On the
other hand, would you have as your
governor, in this time of dire need, a
man who has always been as a friend
to labor, but who, in his secret ma-
chinations, is league with the corpo-
rate interests, and is only a labor
demagogue?"

G. O. P. Always Corrupt

The Republican party is today, as it
has been for years in this state, the
party of the great corrupt corporations
of this state. The Democratic party
is today, as it has been for years in
this state, a party of inefficiency, of
broken pledges and incompetency. Our
state government stands today with-
out credit and without honor through
lack of sovereignty of a Democratic
regime. A vote for George Carlson
is a vote for annihilation of the rights
of labor in this state. A vote for Thom-
as M. Patterson is a vote to extend
two years more the sad spectacle of
Anarchism. There is one party that
stands pledged to right these industrial
wrongs, and guarantees to Colorado a
return of her state sovereignty. That
party is the party of social and in-
dustrial justice—the Progressive party.

"No man or woman living can rob
the Progressives of this state of their
firm title to the love of Colorado. No
man or woman living reverences Colo-
rado more than do the men and women
in this assembly tonight, and no man
here, or elsewhere, may successfully
challenge our devotion to this state,
which has dowered us with everything
from childhood on to manhood; and
by that title, and without reserve, we
say that the Progressive program is
best for Colorado."

PHILIPPINE INDEPENDENCE BILL IS PASSED BY HOUSE

Efforts to Amend Principles of Measure
Fully Senate Won't Consider
It at This Session

WASHINGTON, Oct. 14.—The Jones
Philippine bill which declares the pur-
pose of the United States to recognize
the independence of the islands "as
soon as a stable government can be es-
tablished there" passed the house late
today by a vote of 211 to 59. It will
not be considered in the senate at
this session.

Five Republicans, Representatives
Cooper, Davis, Dillon, Brown and
Rogers; four Progressives, Representa-
tives Falconer, Chandler, Ripley and
Thompson of Illinois; and Representative
Farr, progressive Republican, voted
with the solid Democratic membership
for the bill. Speaker Clark also had
his vote recorded for the measure. Repre-
sentative Bryan of Washington, Pro-
gressive, voted against it.

The bill declares the policy of the
United States of recognition of the in-
dependence of the islands in the pre-
amble, and makes both branches of the
Philippine legislature elective by the
people, fixing terms of office of Philip-
pine senators and the resident commis-
sioner of the Philippines in congress at
six years while representatives shall
serve three years.

The purpose of the measure is de-
clared in the preamble to be to en-
large the self-government of the
Philippines, to define the nature of the
relation between the United States and
the islands, to give qualified veto to
the governor-general and absolute veto
power to the president of the United
States over acts of the Philippine leg-
islature.

All efforts to amend the principles
of the bill failed. Republican op-
ponents charged that it was unwise and
misleading to the Filipino people.

An effort of the minority to engraft
upon it provisions for woman suffrage
and prohibition failed, as did an at-
tempt to secure the neutralization of
the islands by international agreement,
pending independence and as did pro-
posals to alter the salary of the gov-
ernor-general fixed in the bill at
\$18,000 a year.

When your foot does not digest well
and you feel "blue," tired and dis-
couraged, you should use a little **HEP-
BINE** at bedtime. It opens the bowels,
purifies the system and restores a fine
feeling of health and energy. Price 50c.

Union of Canada and Newfoundland Being Discussed

ST. JOHN'S, N. F., Oct. 14.—The pos-
sibility of a union of Newfoundland
with Canada is receiving renewed at-
tention from political leaders here as
a result of the European war. Advo-
cates of this idea point out the danger
to this colony of a separate existence
in the present struggle, and they
emphasize, also, the strategic advan-
tage to Canada of the possession of
Newfoundland, at the mouth of the
St. Lawrence river.

In this connection, the possible fate
of the French island of Meliqueon, in
the event of a German victory, is be-
ing considered as an account of its suit-
ability as a naval coaling station.

Six years ago a German cruiser
made a lengthy visit in St. John's har-
bor and her officers took many trips
to the suburbs. They also went down
the coast to St. Pierre. It is now be-
lieved they made extensive notes. The
harbor of St. Pierre is recognized as
one of the best in this region, as it is
free of ice during the entire winter.

FORDHAM PLAYER DIES

JERSEY CITY, N. J., Oct. 14.—
Charles C. Haven, 18, died today of in-
juries received in a football game Mon-
day. He was a player on the Fordham
university preparatory school team. In
a game with St. Peter's college, he
tackled the man with the ball and
many of the others fell on him. A kick
in the stomach caused injuries which
an operation failed to alleviate.

WOMAN VOLUNTEERS

In stress and trouble the women of
a nation are always to be counted
upon. In Serbia the women went to
the front with muskets in their hands;
they were as strong and brave as the
men on the firing line. In this coun-
try few of our women escape the
weakening troubles peculiar to their
sex.

For every disease or ailment of a
womanly character, no matter how re-
cent or how long standing, the one
sure, reliable remedy of Proved merit
is Dr. Pierce's Favorite Prescription.

It is prepared from nature's roots
and herbs and does not contain a
particle of alcohol or any narcotic. It
is not a secret prescription, for its in-
gredients are printed on the wrapper.
Women are earnestly advised to take
it for irregular or painful periods,
backache, headache, displacement, cat-
arrhal condition, hot flashes, salivary
complexion and nervousness.

For girls about to enter womanhood,
women about to become mothers and
for the changing days of middle age
Dr. Pierce's Favorite Prescription
should always be on hand.

Write Dr. Pierce, Buffalo, N. Y., for
free 128-page book on woman's dis-
eases. Every woman should have one.

NO CHARGE FOR THIS

GRAND HOME MEDICAL BOOK
Every home should have one. Every
man and woman who isn't afraid to
read a book so plainly written that
anyone can understand it should write
today for a revised copy of The Peo-
ple's Common Sense Medical Adviser to
Dr. Pierce, Invalide Hotel, Buffalo,
N. Y.

This is a large cloth-bound book of
1,000 pages; 8 inches long; 1 1/2 inches
thick; brimful of knowledge not found
in ordinary books, sent postpaid to
any reader who will send this clipping
with 20 cents.

The "New" in Children's Shoes

It will be a rare treat to visit our
Children's Department this Fall and
to admire the many new juvenile styles
we've assembled.

There are more reasons than one
for the great popularity of this Young
Folks' department.

Besides the admitted superiority of our Qualities—
we are specialists in providing lasts that fit the young
feet accurately, while adding to their natural beauty and
grace.

Then the question of PRICE is an important consid-
eration. We undoubtedly sell our Boys' and Girls' Shoes
at lower prices, grade for grade, than any other store.

COME AND SEE THE NEW STYLES TODAY

A FIT FOR EVERY FOOT

(Continued from Page One)

announcement the ship officers make in
Flemish and French, the edgways
are lowered. This rule has been en-
forced for several days, but with the
greatest effort, women, clinging to the
handrails and other aids, relatives, re-
fractory blocking the gangways. All
attempts to persuade the refugees to
drop their bundles and hasten aboard
the boats are unavailing. "It is all
over," was the pitiful reply of an
aged and infirm woman, staggering
under heavy baggage.

Great Hotels Closed

Ostend today is amazingly unlike the
gay Atlantic City of Belgium, which
formerly attracted most of the fash-
ionable pleasure seekers of the world.
The shutters are closed on the great
hotels, facing the splendid bathing
beach, where rich and poor alike, resi-
dents or visitors and refugees of all
classes from the interior of Belgium,
are huddled together. But there are
cars which afford comparative comfort
to many of the women and children,
whose only food for days has been
bread and coffee provided by the com-
mittees, which are attempting to keep
down the hunger of the people. In spite
of the fact that all the ordinary
activities have been suspended, now
even bread is becoming very scarce.

The relief boats to Folkestone are so
crowded and hurried that they have
little time to consider the question
of means, and frequently they are un-
able to offer even a cold lunch to the
refugees crowded into every available
inch of deck space.

Marked attention is shown the
wounded soldiers by the refugees, who
gathered about the litter on the docks
and on shipboard, offering cigarettes,
chocolate and other delicacies which
the almost-empty lunch baskets af-
ford.

Many of the soldiers speak only
Flemish, while their nurses know only
English and French, and must rely on
refugees who understand all three lan-
guages to make known the wants of
the sufferers. Little children upon
bridge the language chasm and, with
rare sympathy, assist the nurses.

Soldiers Clothing Tattered

Belgian, English and French soldiers
alike have endured such hardships dur-
ing the recent campaign that the uni-
forms of the wounded soldiers are in
tatters. This is especially true of the
Belgians, whose once bright red and
blue uniforms are now faded and in
shreds as unkempt in appearance as
their unhealed faces.

"My poor Belgian boys have such
disreputable looking uniforms when
they come to me," a Red Cross sur-
geon remarked, "that I try to get some
sort of civilian clothes for them to
tone them up. Of course, we cannot
get new uniforms now, but the poor
things are disheartened enough by their
injuries, without having to hobble
about in rags."

The same surgeon said that in his
opinion, the entire Belgian army should
have six weeks respite to recover from
the shock of its constant service un-
der unprecedented hardships. The
American consul, Henry A. Johnston,
has the affairs of the allies under his
care and is on the docks day and night
assisting his charges. Americans are
not numerous at Ostend, but a few
have been coming in daily from Ant-
werp, Ghent and Brussels. The British
consul left Ostend several days ago,
the consuls representing the other al-
lies accompanying him.

Rains last night and today intensi-
fied the sufferings of the crowds,
which were shoved to the very edge
of the pier, where they remained with-
out shelter in the hope of catching the
next boat. Several persons were pushed
off the docks by the surging masses,
but all were rescued by the guards.

Doctor at Work in Crowd

A dense fog last night cast further
gloom over the dimly lighted pier,
lined with refugees trying to sleep.
The fog kept them from seeing the
flashing boats off the pier. Every re-
fugee started the fugitives, who were
ready to believe that the expected raid
of the Germans had begun.

A Red Cross doctor, provided with
a motor ambulance, and assisted by
a boy scout, has been working without
cessation on the docks, caring for the
sick and exhausted. Several children
have broken their arms by falling over
the scattered luggage. Constant calls
are made for attendance upon women

GERMANS CLAIM THEY HAVE FOUND DUMDUM BULLETS ON FRENCH

Army Authorities Deal Out
Such Shells to Troops,
Statement Says

WASHINGTON, Oct. 14.—Count von
Bernstorff, the German ambassador, is-
sued today the following statement un-
der the heading: "Authorized by the
Imperial Government:

"In possession of French soldiers who
were made prisoners, particularly near
Schlitz, Montmedy and Longwy, num-
erous steel mantle projectiles were
found, the top of which had been bored
out by machinery to a width of two
and a depth of seven millimeters. Near
Fort Longwy a mechanical contrivance
was discovered serving to alter the
bullet of finished cartridges in the
above fashion. There also were whole
cases full of such cartridges captured.
It is, therefore, beyond doubt that car-
tridges of this description have been
sent out to the troops by the French
army authorities.

"As regards the effect of these low-
velocity bullets, commonly known as
dum-dum bullets, the outer leaden en-
velope will at the impact emerge from
the steel mantle and flatten out, thus
causing particularly cruel wounds, and
needless suffering. The same is to be
said of the mantle which, when torn
open, produces heavy lacerations in the
organic tissues.

Other Similar Cartridges

"Other cartridges found upon French
prisoners show bullets either provided
with strongly protruding edges caused
through incision, or tipped off at the
top or even split open. Military in-
vestigations have established the fact
that men have treated the cartridges
as described by order of their officers.
Bullets of this kind are as liable to
cause similar needless wounds as the
dum-dum bullets.

"The use of all such projectiles is
prohibited by the rules of international
law, more especially by article 23, para-
graph 1, Section 2 of The Hague regu-
lations for war on land and by The
Hague declaration of July 29, 1899, re-
lating to the prohibition of projectiles
which easily expand or flatten in the
human body."

The Embassy Received Today a Wire- less Message from Berlin saying:

"The English reports that German
industry is at a standstill with no pos-
sibility of export are lies. The econ-
omic life of Germany is progressing
as usual. German exports both abso-
lutely and relatively have decreased
less than those of England despite the
attempts of the enemies to check them.
German industries, especially textile
industries, are working with nearly full
pressure."

FRENCH EXPRESS HIGH OPINIONS OF BELGIANS

Compliment Little Country for Brave
Stand in Offering Havre as
Temporary Capital

LONDON, Oct. 14.—As soon as the
president of the French republic was
advised of the desire of the Belgian
government to remove to Havre, he
telegraphed King Albert, offering him
the hospitality of the French city and
informing him that the sovereignty of
the royal government would be assured
there.

The king conveyed his thanks to
President Poincaré, adding:
"We await the hour of mutual vic-
tory with unshakable confidence.
Fighting side by side for a just cause,
our courage will never fail."

The Belgian premier, Charles de
Broqueville, sent a message to M. Vi-
viani, the French premier, expressing
the gratitude of the Belgian govern-
ment for the welcome accorded it by
the French government.

"Belgium," he added, "which has sac-
rificed everything for the defense of
honesty, honor and liberty, regrets
nothing. She has the confidence arising
from the knowledge of a duty
accomplished and the certainty of the
triumph of the allies' cause."

Premier Viviani replied: "The gov-
ernment of the republic is proud to ex-
tend its hospitality to the noble and
valiant nation, which is sacrificing
everything for its honor and for duty,
and for which it has rendered such
signal service to a common cause. I
am sure that the close union of the
allied nations will insure the definite
triumph of justice and right."

Premier de Broqueville also sent a
telegram to M. Millerand, the French
minister of war, in which he said:
"The Belgian army, which is now
standing at bay on the French front,
after more than two months of
fighting, feels honor and joy in the
thought of reconquering its native land
in close cooperation with the gallant
armies of the allies."

M. Millerand replied that the Bel-
gian, English, Russian and French
were "indissolubly united and will win
because their will is superior to all
trials."

Zulus With Spears, Bows and Arrows Join Allied Armies

NEW YORK, Oct. 14.—Mrs. M. Ger-
schwyler of Rapid City, S. D., arriving
today on an Italian steamer, said her
train from Milan passed another filled
with Zulu warriors. She was informed,
she said, they were to join the allies in
northern France. Mrs. Gerschwyler de-
clared the Zulus were armed with
spears and bows and arrows.

The first directory of London was
published in 1677 and consisted of 120
pages.

Illinois Ammunition Plant Gets Order for Lead Bullet Shells

ALTON, Ill., Oct. 14.—An order for
ammunition received by a local car-
tridge company yesterday will neces-
sitate the employment of several hun-
dred additional hands and the opera-
tion of the factory day and night for
six months.

The order was placed by a New York
banking firm which did not disclose
the identity of its client. The ammu-
nition, however, is to be delivered at
New York.

The shells ordered correspond to 3-
caliber bullets and will carry lead bul-
lets not steel-jacketed. The slugs will
be wrapped in paper before they are
placed in the shells. According to of-
ficials of the plant the cartridges ap-
pear to be intended for old-style guns.
There is much speculation here as to
their destination.

New York Poor Will Suffer This Winter if Care Isn't Taken

NEW YORK, Oct. 14.—In the third
of a series of circulars on how to buy
foodstuffs sent out today for distribu-
tion in the public schools, the mayor's
committee on food supply warns the
school principals that New York has
a critical winter before it because of
the European war and that their res-
ponsibility is to make the public is
to make the supply of the situation.

The committee asks that every means
possible be taken to educate parents
through their children in the economic
methods of purchasing food supplies.
The circular for distribution today con-
tains advice on the purchase of veg-
etables.

Chamberlain's Cough Remedy — The Mother's Favorite

"I give Chamberlain's Cough Remedy
to my children when they have colds
or coughs," writes Mrs. A. J. Shaw,
Vanderbilt, N. Y. "It always helps them

medicine I have used. I advise everyone
in need of such a medicine to give it
a trial." For sale by all dealers. Adv.

German Cruisers in Black Sea Are Thought to Be Engaged

LONDON, Oct. 14.—A dispatch
to the Exchange Telegraph from
Bucharest, coming by way of
Rome, says:
"Heavy cannoning has been heard
off Konstantinople on the Black Sea."
It is believed that the
former German cruisers Goeben and
Breslau, which now fly the Turkish
flag, and which yesterday undertook
to escort from Sulina to the district of
Buhadra, Roumania, several trans-
ports laden with munitions have either
attacked or been attacked by the Rus-
sian fleet."

AMERICAN CITIZENS ARE PRESSED INTO SERVICE IN ITALY

**Naturalization Laws Are Not
Recognized by Italians;
Warning Issued**

WASHINGTON, Oct. 14.—Consider-
able concern was manifested at the
state department today over the status
of American citizens, both native and
naturalized, who were caught in the
outbreak of the European war and drafted
for military service because they or their
fathers were born subjects of such
countries.

This has occurred in countries with
which the United States has no natu-
ralization treaties and has called forth
this warning, issued to foreign-born
elements in the United States by the
department against visits to Europe
at this time.

"The department of state has been
informed that persons born in this
country of Italian parents, when they
return to Italy, are held for military
service in that country. Although such
persons are born American citizens,
under the laws of this country, they
are also born Italian subjects under
Italian law, thus having a dual national-
ity. For this reason, the Italian gov-
ernment claims their service for the
Italian army when such person are
found in Italy.

No Treaty With Italy.

"The department is also informed of
numerous cases where Italians, who
have been naturalized as citizens of
the United States, and have subse-
quently returned to Italy, have been
held in that country for military
service. There is no treaty of naturaliza-
tion between the United States and
Italy, and under Italian law, the natu-
ralization of an Italian subject as a
citizen or subject of another country
does not relieve him from the liability
of the performance of military service
in Italy.

"The department has found itself
embarrassed in protesting to the vari-
ous governments by the fact that the
United States has adhered to the doc-
trine that the child born to American
parents in a foreign country is an
American citizen unless he voluntarily
relinquishes the citizenship. The pos-
sibility of an Italian subject as a
citizen or subject of another country
is that, when a citizen leaves the
fatherland without having ren-
dered military service, not only he, but
his male children, are subject to a
draft for military duty upon their return
to the fatherland.

So far, it is said, the efforts of the
state department to obtain the releas-
e of such persons have proved unavailing,
although they are being continued.

'WHY ELECT A C. F. & I. MAN?' ASKS COSTIGAN

(Continued from Page One)

will be recruited, not from either side
of the conflict, but from the state's
tax citizenship, and I shall lead the
forces in person.

"In my opinion, when you speak
justice is silent. I reiterate that the
problem of the Progressive party in
Colorado and the nation is fundamen-
tally a problem of justice. We
must be just to the capitalists, just to
the farmer, just to the taxpayer and
just to the consumer. The paramount
issue in this state this year is the in-
dustrial situation. This great conflict
still hangs in the balance, undecided.
It is the duty of the state government
to act as an unbiased referee in this
conflict. Would you elect to the gov-
ernment of this state, in this time of
great peril, a man who is a hireling
of the great corporations, which
constitute the backbone of the state,
to that conflict? A man who is glad
in his heart to have the political support
of the Colorado Fuel and Iron com-
pany, and proud to feel that he is the
choice of Mr. Rockefeller, Colorado
representative, Mr. Bowers. On the
other hand, would you have, as your
governor, in this time of dire need,
a man who has always posed as a friend
to labor, but who, in his secret
ambitions, is league with the corpo-
rate interests and is only a labor
demagogue?"

G. O. P. Always Corrupt.

"The Republican party is today
has been for years in this state, the
party of the great corrupt corporations
of this state. The Democratic party is
today, as it has been for years in this
state, a party of inefficiency, of broken
promises and incompetency. Our
state government stands today with-
out credit and without honor through
lack of sovereignty of a Democratic
regime. A vote for George Carlson
is a vote for annihilation of the rights
of labor in this state. A vote for Thom-
as M. Patterson is a vote to extend
two years more the sad spectacle of
Ammonia. There is one party that
stands pledged to right these industrial
wrongs, and guarantees to Colorado a
return of her state sovereignty. That
party is the party of social and in-
dustrial justice, the Progressive party.

"No man or woman living can rob
the Progressives of this state of their
firm title to love of Colorado. No
woman living reverences Colorado
more than do the men and women in
this assembly tonight, and no man
here, or elsewhere, may successfully
challenge our devotion to this state,
which has dowered us with everything
from childhood on to manhood; and
by that title, and without reserve, we
say that the Progressive program is
the only one for Colorado."

PHILIPPINE INDEPENDENCE BILL IS PASSED BY HOUSE

**Efforts to Amend Principles of Measure
Fully Senate Won't Consider
It at This Session**

WASHINGTON, Oct. 14.—The Jones
Philippine bill which declares the pur-
pose of the United States to recognize
the independence of the islands "as
soon as a stable government can be es-
tablished there" passed the house late
today by a vote of 211 to 59. It will
not be considered in the senate at
this session.

Five Republicans, Representatives
Cooper, Davis, Dillon, Gifford and
Rogers; four Progressives, Representa-
tives Falcenberg, Chandler, Ripley and
Thomson of Illinois, and Representa-
tive Furt, progressive Republican, voted
with the solid Democratic membership
for the bill. Speaker Clark also had
his vote recorded for the measure. Rep-
resentative Bryan of Washington, Pro-
gressive, voted against it.

The bill declares the policy of the
United States on recognition of the in-
dependence of the islands in the pre-
amble, and makes both branches of the
Philippine legislature elective by the
people, fixing terms of office of Philip-
pine senators and the resident commis-
sioner of the Philippines in congress at
six years while representatives shall
serve three years.

The purpose of the measure is de-
clared in the preamble to be to en-
large the self-government of the
Philippines, to define the nature of the
relation between the United States and
the islands, to give qualified veto to
the governor-general and absolute veto
power to the president of the United
States over acts of the Philippine leg-
islature.

All efforts to amend the principles
of the bill failed. Republican op-
ponents charged that it was unwise and
misleading to the Filipino people.

An effort of the minority to engraft
upon it provisions for woman suffrage
and prohibition failed, as did an at-
tempt to secure the neutralization of
the islands by international agreement
pending independence and as did propo-
sals to alter the salary of the gov-
ernor-general, fixed in the bill at
\$18,000 a year.

When your food does not digest well
and you feel "blue," tired and discour-
aged, you should use a little HERBET
at bedtime. It opens the bowels, puri-
fies the system and restores a fine
feeling of health and energy. Price 50c.

Union of Canada and Newfoundland Being Discussed

ST. JOHN'S, N. F., Oct. 14.—The pos-
sibility of a union of Newfoundland
with Canada is receiving renewed at-
tention from political leaders here as
a result of the European war. Advo-
cates of this idea point out the danger
to this colony of a separate existence
in the present struggle, and they
emphasize also the strategic advan-
tage to Canada of the possession of
Newfoundland at the mouth of the
St. Lawrence river.

In this connection, the possible fate
of the French island of Miquelon, in
the event of a German victory, is be-
ing considered on account of its suit-
ability as a naval coaling station.

Six years ago a German cruiser
made a lengthy visit to St. John's har-
bor and her officers took many trips
to the suburbs. They also went down
the coast to St. Pierre. It is now be-
lieved they made extensive notes. The
harbor of St. Pierre is recognized as
one of the best in this region, as it is
free of ice during the entire winter.

FORDHAM PLAYER DIES

JERSEY CITY, N. J., Oct. 14.—
Charles C. Hayes, 18, died today of
injuries received in a football game Mon-
day. He was a player on the Fordham
university preparatory school team. In
a game with St. Peter's college, he
tackled the man with the ball and
many of the others fell on him. A kick
in the stomach caused injuries which
an operation failed to alleviate.

WOMAN VOLUNTEERS

In stress and trouble the women of
a nation are always to be counted
upon. In Serbia the women went to
the front with muskets in their hands;
they were as strong and brave as the
men on the firing line. In this coun-
try few of our women escape the
weakening troubles peculiar to their
sex.

For every disease or ailment of a
womanly character, no matter how re-
cent or how long standing, the one
sure, reliable remedy of proved merit
is Dr. Pierce's Favorite Prescription.

It is prepared from nature's roots
and herbs and does not contain a par-
ticulate of alcohol or any narcotic. It
is not a secret prescription, for its in-
gredients are printed on the wrapper.
Women are earnestly advised to take
it for irregular or painful periods,
backache, headache, displacement, cas-
tration condition, hot flashes, salivary
complexion and nervousness.

For girls about to enter womanhood,
women about to become mothers and
for the changing days of middle age
Dr. Pierce's Favorite Prescription
should always be on hand.

Write Dr. Pierce, Buffalo, N. Y., for
free 128-page book on woman's dis-
eases. Every woman should have one.

The "New" in Children's Shoes

It will be a rare treat to visit our
Children's Department this Fall and
to admire the many new juvenile styles
we've assembled.

There are more reasons than one
for the great popularity of this Young
Folks' department.

Besides the admitted superiority of our Qualities—
we are specialists in providing lasts that fit the young
feet accurately, while adding to their natural beauty and
grace.

Then the question of PRICE is an important consid-
eration. We undoubtedly sell our Boys' and Girls' Shoes
at lower prices, grade for grade, than any other store.

COME AND SEE THE NEW STYLES TODAY

25,000 FRIGHTENED PEOPLE HUDDLE ON DOCK AT OSTEND FEARING ARRIVAL OF GERMANS

(Continued from Page One)

announcement the ship officers make in
Flemish and French as the dockways
are lowered. This rule has been en-
forced for several days, but with the
greatest effort, women clinging to their
husbands and other male relatives, re-
flecting, blocking the gangways. All
attempts to persuade the refugees to
drop their bundles and hasten aboard
the boats are unavailing. "It is all we
have left," was the pitiful reply of an
aged and infirm woman staggering
under heavy baggage.

Great Hotels Closed.

Ostend today is amazingly unlike the
gay Atlantic City of Belgium, which
formerly attracted much of the fash-
ionable pleasure seekers of the world.
The shutters are closed on the great
hotels facing the splendid bathing
beach, where rich and poor alike, res-
idents of Ostend and refugees of all
classes from the interior of Belgium,
are huddled together. But there are
cars which afford comparative comfort
to many of the women and children,
whose only food for days has been
bread and coffee provided by the com-
mittees, which are attempting to keep
down the hunger of the people, in spite
of the fact that all the necessary
activities have been suspended. Now
even bread is becoming very scarce.

The relief boats to Folkestone are so
crowded and hurried that they have
little time to consider the question
of means, and frequently they are un-
able to offer even a cold lunch to the
refugees crowded into every available
inch of deck space.

Marked attention is shown the
wounded soldiers by the refugees, who
gathered about the litter on the docks
and on shipboard, offering cigarettes,
chocolate and other delicacies which
the almost-empty lunch baskets af-
ford.

Many of the soldiers speak only
Flemish, while their nurses know only
English and French, and must rely on
refugees who understand all three lan-
guages to make known the wants of
the sufferers. Little children often
bridge the language chasm and, with
rare sympathy, assist the nurses.

Soldiers Clothing Tattered

Belgian, English and French soldiers
alike have endured such hardships dur-
ing the recent campaign that the uni-
forms of the wounded soldiers are in
tatters. This is especially true of the
Belgians, whose once bright red and
blue uniforms are now faded and in
shreds—so unkempt in appearance as
their unshaven faces.

"My poor Belgian boys have such
disreputable looking uniforms when
they come to me," a Red Cross sur-
geon remarked, "that I try to get some
sort of civilian clothes for them to
tone them up. Of course, we cannot
get new uniforms now, but the poor
chaps are disheartened enough by their
injuries, without having to huddle
about in rags."

The same surgeon said that in his
opinion, the entire Belgian army should
have six weeks respite to recover from
the shock of its constant service un-
der unprecedented hardships. The
American consul, Henry A. Johnston,
has the affairs of the allies under his
care and is on the docks day and night
assisting his charges. Americans are
not numerous at Ostend, but a few
have been coming in daily from An-
twerp, Ghent and Bruges. The British
consul left Ostend several days ago,
the consuls representing the other al-
lies accompanying him.

Rains last night and today intensi-
fied the sufferings of the crowds,
which were shoved to the very edge
of the pier, where they remained with-
out shelter, in the hope of catching the
next boat. Several persons were pushed
off the docks by the surging masses,
but all were rescued by the guards.

Doctor at Work in Crowd

A dense fog last night cast further
gloom over the dimly lighted pier,
lined with refugees trying to sleep.
The fog guns were kept firing to warn
fishing boats off the reefs. Every re-
fugee started the fugitives, who were
ready to believe that the expected raid
of the Germans had begun.

A Red Cross doctor, provided with
a motor ambulance, and assisted by
boy scouts, has been working without
cessation on the docks, caring for the
sick and exhausted. Several children
have broken their arms by falling over
the scattered luggage. Constant calls
are made for attendance upon women

GERMANS CLAIM THEY HAVE FOUND QUMDUM BULLETS ON FRENCH

**Army Authorities Dealt Out
Such Shells to Troops,
Statement Says**

WASHINGTON, Oct. 14.—Count von
Bernstorff, the German ambassador, is-
sued today the following statement un-
der the heading: "Authorized by the
Imperial Government:

"In possession of French soldiers who
were made prisoners, particularly near
Schtrips, Montmedy and Longwy, nu-
merous steel mantle projectiles were
found, the top of which had been bored
out by machinery to a width of five
and a depth of seven millimeters. Near
Fort Longwy a mechanical contrivance
was discovered serving to alter the
bullets of finished cartridges in the
above fashion. There also were whole
cases full of such cartridges captured.
It is, therefore, beyond doubt that car-
tridges of this description have been
dealt out to the troops by the French
army authorities.

"As regards the effect of these hol-
low top bullets, commonly known as
dum-dum bullets, the softer leaden-
nucleus will, at the impact, emerge from
the steel mantle and flatten out, thus
causing instantly cruel wounds and
needless suffering. The same is to be
said of the mantle which, when torn
open, produces heavy lacerations in the
organic tissues.

Other Similar Cartridges.

"Other cartridges found upon French
prisoners show bullets either provided
with strongly protruding edges caused
through infection, or tipped off at the
top or even split open. Military in-
vestigations have established the fact
that men have treated the cartridges
as described by order of their officers.
Bullets of this kind are as liable to
cause similar needless wounds as the
dum-dum bullets.

"The use of all such projectiles is
prohibited by the rules of international
law, more especially by article 23, para-
graph 1, Section I of The Hague regu-
lations for war on land and by The
Hague declaration of July 28, 1889, re-
lating to the prohibition of projectiles
which easily expand or flatten in the
human body."

The embassy received today a wire-
less message from Berlin saying:
"The English reports that German
industry is at a standstill with no pos-
sibility of export are lies. The econ-
omic life of Germany is progressing
as usual. German exports both abso-
lutely and relatively have decreased
less than those of England despite the
attempts of the enemies to check them.
German industries, especially textile
industries, are working with nearly full
pressure."

FRENCH EXPRESS HIGH OPINIONS OF BELGIANS

Compliment Little Country for Brave
Temporary Capital

LONDON, Oct. 14.—As soon as the
president of the French republic was
advised of the desire of the Belgian
government to remove to Havre, he
telegraphed King Albert, offering him
the hospitality of the French city and
informing him that the sovereignty of
the royal government would be assured
there.

The king conveyed his thanks to
President Poincaré, adding:
"We await the hour of mutual vic-
tory with unshakable confidence.
Fighting side by side for a just cause,
our courage will never fail."

The Belgian premier, Charles de
Broqueville, sent a message to M. Vi-
viani, the French premier, expressing
the gratitude of the Belgian govern-
ment for the welcome accorded it by
the French government.

"Belgium," he added, "which has sac-
rificed everything for the defense of
honesty, honor and liberty, regrets
nothing. She has the confidence arising
from the knowledge of a duty
accomplished and the certainty of the
triumph of the allies' cause."

Premier Viviani replied: "The gov-
ernment of the republic is proud to ex-
tend its hospitality to the noble and
valiant nation, which is sacrificing
everything for its honor and for duty,
and for which it has rendered such
signal service to a common cause. I
am sure that the close union of the
allied nations will insure the definite
triumph of justice and right."

Premier de Broqueville also sent a
telegram to M. Millerand, the French
minister of war, in which he said:
"The Belgian army, which is now
standing at bay on the French front,
after more than two months of
fighting, feels honor and joy in the
thought of reconquering its native land
in close cooperation with the superb
armies of the allies."

M. Millerand replied that the Bel-
gian, English, Russian and French
were "indissolubly united and will win
because their will is superior to all
trials."

Zulus With Spears, Bows and Arrows Join Allied Armies

NEW YORK, Oct. 14.—Mrs. M. Ger-
schwyler of Rapid City, S. D., arriving
today on an Italian steamer, said her
train from Milan passed another filled
with Zulu warriors. She was informed,
she said, they were to join the allies in
northern France. Mrs. Gerschwyler de-
clared the Zulus were armed with
spears and bows and arrows.

The first directory of London was
published in 1677 and consisted of 150
pages.

Illinois Ammunition Plant Gets Order for Lead Bullet Shells

ALTON, Ill., Oct. 14.—An order for
ammunition received by a local car-
tridge company yesterday will neces-
sitate the employment of several hun-
dred additional hands and the op-
eration of the factory day and night for
six months.

The order was placed by a New York
banking firm which did not disclose
the identity of its client. The ammu-
nition, however, is to be delivered at
New York.

The shells ordered correspond to 45-
caliber bullets and will carry 140 bul-
lets not steel jacketed. The shells will
be wrapped in paper before they are
placed in the shells. According to of-
ficials of the plant the cartridges ap-
pear to be intended for old-style guns.
There is much speculation here as to
their destination.

New York Poor Will Suffer This Winter if Care Isn't Taken

NEW YORK, Oct. 14.—In the third
of a series of circulars on how to buy
foodstuffs sent out today for distribu-
tion in the public schools, the mayor's
committee on food supply warns the
school principals that New York has
a cruel winter before it because of
the European war and that their co-
operation is necessary if the public is
to realize the gravity of the situation.

The committee asks that every means
possible be taken to educate parents
through their children in the economic
methods of purchasing food supplies.
The circular for distribution today con-
tains advice on the purchase of veg-
etables.

Chamberlain's Cough Remedy — The Mother's Favorite.

"I give Chamberlain's Cough Remedy
to my children when they have colds
or coughs," writes Mrs. Verne Shaffer,
Vandergrift, Pa. "It always helps them
and is far superior to any other cough
medicine I have used. I advise all
in need of such a medicine to give it
a trial." For sale by all dealers. Adv.

German Cruisers in Black Sea Are Thought to Be Engaged

LONDON, Oct. 15.—3:29 a. m.—A
dispatch to the Exchange Telegraph
from Bucharest, coming by way of
Rome, says:

"Heavy cannonading has been heard
off Kustendj on Roumania on the
Black sea. It is believed that the
former German cruisers Goeben and
Breslau, which now fly the Turkish
flag, and which yesterday undertook
to escort from Sullia (an arm of the
Danube traversing the district of
Dobruja, Roumania) several trans-
ports laden with munitions have either
attacked or been attacked by the Rus-
sian fleet."

Have your AWNINGS been removed and stored!

They will last twice as
long and look better.

WORKING OUT PLANS FOR ADVERTISING CAMPAIGN

Special Work Under Way to Boom
Colorado Springs as an Ideal
Winter Resort

Plans for the winter advertising cam-
paign were discussed at a meeting of
the board of directors of the Chamber
of Commerce yesterday, and Dr. A. A.
Magruder, chairman of the advertis-
ing committee, gave his report. A com-
mittee of five was appointed to work
out the details and select the reading
matter to appear in the papers. The
committee will work on the general
line of boosting Colorado Springs as an
ideal winter resort, with special em-
phasis on its climatic conditions. The
committee is composed of Dr. A. C.
Magruder, chairman of the committee
on climatic conditions; O. E. Hemen-
way, chairman of the educational com-
mittee; T. C. Kirkwood, chairman of
the advertising committee; W. R. Ar-
strong, chairman of the finance com-
mittee, and J. L. Subank, chairman of
the agricultural committee.

Better Roads Urged.
The "better roads" initiated bill was
approved by the board, which also
adopted a resolution urging the mem-
bers of the association to work for the
passage of the bill and vote for it No-
vember 3.

The agricultural committee was au-
thorized to get the prize exhibits of the
Central Colorado exposition in shape
for the international fair in San Fran-
cisco next summer.

T. C. Kirkwood, chairman of the ad-
vertising committee, reported on the
"See Colorado Now" campaign, which
is being conducted under the auspices
of the Chamber of Commerce. A num-
ber of responses have been received in
reply to the circular letter sent out
several days ago, calling attention to
the attractions of the Pikes Peak re-
gion as a vacation resort. The move-
ment is getting a large amount of pub-
licity in the papers throughout the
state.

The transportation committee re-
ported on the matter of the closing of
the Ogden gateway. The secretary of
the Chamber of Commerce was author-
ized to attend the meeting at the Den-
ver association tomorrow night, at
which Edward Trefz, field secretary of
the United States Chamber of Com-
merce, will speak.

Tuesday evening, October 20, was set
for the next general membership meet-
ing of the association at the Chamber
of Commerce.

PORTLAND STOCKHOLDERS TO GET DIVIDEND OCT. 20

Company's Regular Quarterly Payment
Will Amount of \$5,000; Dividends
This Year \$102,000

Stockholders of the Portland Gold
Mining company of record October 10
will receive the regular quarterly di-
vidend next Tuesday of 2 cents a share on
the 3,000,000 shares of capital stock,
making a total payment of \$60,000. The
total dividend for the present year, in-
cluding an extra dividend of 2 cents,
will then amount to \$102,000. On the
lower levels, the ores continue to de-
velop in large quantities and the fa-
mous property never looked better than
at the present time.

At the Stratton Independence prop-
erty, the recent ore strike is holding
out well and a narrow streak which is
expected to widen out runs about \$40
in gold.

The London shareholders of Strat-
ton's Independence will hold their an-
nual meeting early in December, when
the matter of dividends will be definite-
ly settled.

The company is able to pay 20 per-
cent, or \$120,000, yearly upon its cap-
ital stock, which is valued at \$600,000,
being 1,000,000 shares at 60 cents (5
shillings) each. May 20, 1914, the di-
rectors declared a dividend of \$60,750,
which was later set aside for the pur-
chase of additional gold mines.

The continuation of this policy in spite of
Europe's great war will be the chief
topic at the December meeting.

In its present form, Stratton's Inde-
pendence has paid out \$967,750 in di-
vidends, or 150 per cent on the par value
of the shares. The old company, which
bought out Winfield Scott Stratton in
1903, paid \$5,028,568 in dividends; the
final declaration having been made
December 31, 1908, after some noted ex-
perts said the mine was "played out."

3,000 Are Working to Bring Out Dry Vote

The headquarters of the Colorado
Dry league was a busy place yesterday,
and hundreds of letters were sent out
to doubtful voters. Church lists are
being checked off by the workers for
the "drys," and post cards sent to
all those who have not registered, no-
tifying them that today is the last day
to register. E. J. Hall, campaign man-
ager, said yesterday that he now has
more than 3,000 workers in the various
city precincts and that today many
will be working to get every "dry" vote
registered.

The management of the campaign in
El Paso county is the same as that
which was in charge of the work in
Pueblo before the primaries. E. J. Hall
and D. C. Summers. They have also
taken charge of organization work in
Denver. The headquarters for the
league in El Paso county are in the
Y. M. C. A. building.

GOULD GETS VERDICT FOR \$1,200,000 AGAINST HEINZE

NEW YORK, Oct. 14.—A verdict in
favor of Edward Gould in his suit
against F. Augustus Heinze for the re-
covery of \$1,200,000, a part of the pur-
chase price of stock in the Mercantile
National bank with interest thereon,
was returned by a jury in the United
States district court here today. While
the jury was out Justice Paine sent in-
structions that the jury must bring in
a verdict for the whole amount or
nothing.

BUSINESS ACTIVITY WILL INCREASE, SAYS RICHARDS

Present Abnormal Situation in the
United States Won't Continue Long
in Opinion of Bank President

The European wars will not have a
lasting effect on business conditions in
this country, in the opinion of W. F.
Richards, vice president of the Colorado
Springs National bank, who has just
returned from his summer home in
New Hampshire. The United States
will gradually adjust itself to the pre-
sent abnormal situation, he says, and
even if the struggle should continue
for an indefinite period, business is
sure to improve.

The woolen manufacturing business
is picking up to a large extent, ac-
cording to Mr. Richards, who is finan-
cially interested in the trade. The or-
ders that have been placed with Amer-
ican mills for blankets and other war
supplies for the British and French
armies have helped to take the busi-
ness out of a rut and the winter trade
shows an increased order sheet. The
woolen manufacturing business was al-
most at a standstill, he said yesterday,
"but the orders from Europe have en-
couraged us. The same is true in
other lines and it looks as though gen-
eral business interests will adjust
themselves to war conditions."

Domestic industries may be encour-
aged as never before, thinks Mr. Rich-
ards, and many new fields of manufac-
ture may be opened for the Americans,
which always have been held as monop-
olies by the foreign nations.

Generally speaking, the west is better
off than the east, but there are signs
of a resumption of business all over
the country.

Mr. Richards was married in London
last April and spent part of his hon-
eymoon in Germany. Mrs. Rich-
ards is an American and formerly held
a chair in a German university. There
was no sign of war when they left late
in May. Mr. and Mrs. Richards re-
turned to this country in June.

"The war came as a surprise to many
nations," said Mr. Richards, "but the
Germans were ready for an emergency
and have proved it. It does not, how-
ever, seem possible that they can win
in the end."

A Dainty Toilet Article

Every lady who desires to keep up
her attractive appearance while at the
theater, attending receptions, when
shopping, while traveling and on all
occasions should carry in her purse a
booklet of Gouraud's Oriental Beauty
Leaves. This is a dainty little booklet
of exquisitely powdered
leaves which are gently removed and
applied to the skin. It is invaluable
when the face becomes moist and
flushed and is far superior to a pow-
der puff as it does not spill and soil
the clothes.

It removes dirt, dust and grime from
the face, imparting a cool, delicate
blush to the complexion. Put up in
white and pink and sent anywhere on
receipt of ten cents in stamp or coin.
F. T. Hopkins, 37 Great Jones St., New
York. Adv.

MME. JOHNSON CORSET CO.'S NEW LOCATION

Mme. Johnson wishes to announce
the removal of The Corset Shop from
108 1/2 North Tejon St. to Suite No. 2,
second floor, Chamber of Commerce
Bldg., 21 N. Tejon St. The same line
of goods will be carried, including
many new models which will be on
display Monday, Oct. 20. Adv.

CHECK KIDNEY TROUBLE AT ONCE

There is such ready action in Foley
Kidney Pills, you feel their healing
from the very first dose. Backache,
weak, sore kidneys, painful bladder
and irregular action disappear with
their use. O. Palmer, Green Bay, Wis.,
says: "My wife is rapidly recovering
her health and strength, due solely
to Foley Kidney Pills. And W. T.
Hutchinson, Wisconsin, says: "Just
a few doses made me feel better, and
now my pains and rheumatism are all
gone and I sleep all night long." Rob-
inson Drug Co. Adv.

JOHN C. CUSTER TAKEN BACK TO PENITENTIARY

Because he armed himself and started
to the county poor farm with the
threat to kill a resident there who was
a witness against him when he was
tried for murder, John C. Custer, pa-
nuled from the state penitentiary, where
he has been serving time for the kill-
ing of John Marshall in this county
several years ago, was taken back to
prison yesterday by an officer from
Canon City.

Quickest, Surest Cough Remedy is Home- Made

Easily prepared in a few min-
utes. Coughs put quiescent.

Some people are constantly annoyed
from one year's end to the other with a
persistent bronchial cough, which is whol-
ly unnecessary. Here is a home-made
remedy that gets right at the cause and
will make you wonder what became of it.

Get 2 1/2 ounces Pinex (50 cents worth)
from any druggist, pour into a pint bottle
and fill the bottle with plain granulated
sugar syrup. Start taking it at once.
Gradually but surely you will notice the
phlegm thin out and then disappear al-
together, thus ending a cough that you
never thought would end. It also loosens
the dry, hoarse or tight cough and heals
the inflammation in a painful cough with
remarkable rapidity. Ordinary coughs
are conquered by it in 24 hours or less.
Nothing better for bronchitis, winter
coughs and bronchial asthma.

This Pinex and Sugar Syrup mixture
makes a full pint enough to last a
family a long time—at a cost of only 54
cents. Keeps perfectly and tastes pleas-
ant. Easily prepared. Full directions
with Pinex.

Pinex is a special and highly con-
centrated compound of genuine Norway pine
extract, rich in gualic acid, and is famous
the world over for its ease, safety and
promptness in overcoming bad coughs,
croup and throat troubles.

Get the genuine. Ask your druggist
for "2 1/2 ounces Pinex," and do not accept
anything else. A guarantee of absolute
satisfaction, or money promptly refunded,
goes with this preparation. The Pinex
Co., Ft. Wayne, Ind.

KEEP LIVER AND BOWELS REGULAR WITH CASCARETS

No more Headache, Bad Colds,
sour stomach and
constipation

Get a 10-cent box now.

No odds how bad your liver, stom-
ach or bowels; how much your head
aches, how miserable and uncomfort-
able you are from constipation, indig-
estation, biliousness and sluggish bow-
els, you always get the desired results
with Cascarets.

Don't let your stomach, liver and
bowels make you miserable. Take
Cascarets tonight; put an end to the
headache, biliousness, dizziness, nerv-
ousness, sick, sour, gassy stomach,
backache and all other distress; cleanse
your inside organs of all the bile,
gases and constipated matter which
is producing the misery.

A 10-cent box means health, happi-
ness and a clear head for months. No
more days of gloom and distress if you
will take a Cascaret now and then. All
druggists sell Cascarets. Don't forget
the children—their little insides need
a gentle cleansing, too. Adv.

Did You Register? Last Chance Today

Registration boards will sit today
from 9 a. m. until 9 p. m. in all the
precinct polling places in Colorado
Springs. This will be the last chance
to register in this city. The books
were open for registration and change
of address in the Colorado City pre-
cincts yesterday, and will remain so
today and tomorrow at 42 1/2 Colorado
avenue. The hours there are from 12
noon until 9 p. m. In the country
precincts registration will be held Oc-
tober 20 and November 2 from 7 a.
m. to 7 p. m.

Change of address for Colorado
Springs voters can be made October
19, 20, 21, 22 and 23 at the county
clerk's office, Colorado Springs pol-
ling places are as follows:

- Ward 1, Prec. 1—Woods Chapel, car-
- Ward 1, Prec. 2—1700 N. Weber St.

CAMPAIGN FOR DENTAL CLINIC ON TOMORROW

Women Workers to Interest School
Principals in Movement, Also Par-
ents Having Children in School

A whirlwind campaign for funds to
equip and maintain a dental clinic for
the public school children will be
started tomorrow by a committee com-
posed of Mrs. Dillon (Cassment) Mrs.
C. J. Wright and Mrs. H. V. Wandell,
who are in charge of the movement
and at the head of the subcommittee
of 20. Accompanied by C. M. Cole,
superintendent of schools, they will be
taken through the city schools to meet
the principals and interest them in
the campaign. A subscription of \$1
will be asked from each member of
the Parent-Teacher association, which
will be directly benefited by the clinic.
Approximately \$150 was raised as the
result of last year's activity leaving
\$250 to be raised to complete the fund
of \$500 necessary for the establish-
ment of the clinic.

Committee Meeting Monday.

There will be a full committee meet-
ing next Monday at the Chamber of
Commerce, when Mrs. Wright will read
a report from the Denver association,
which has been in operation for more
than a year. The financing of the Den-
ver organization will also be explained
to the committee. A special campaign
will be carried on among the parents
of the city.

"We are anxious to get this move-
ment started," said Mrs. Wright yester-
day, "and will begin by asking con-
tributions of \$1 from everyone. In this
way we hope to raise the greater part
of the fund among parents who have
children at school. The Dental associa-
tion has promised to give its serv-
ices without charge for one year, and
by that time we hope to have the in-
stitution in full swing. The committee
will visit the schools with Mr. Cole
tomorrow morning and try to interest
the principals in the movement.
Through them we expect to get the
parents in sympathy with us."

All contributions should be made to
Mrs. C. J. Wright, chairman, Dr. Mary
Noble or Mrs. Thun Dillon (Cassment).
The subcommittee follows: Dr. Mary
Noble, W. K. Argo, A. T. Jones, O. E.
Hemenway, Mrs. L. D. Coffin, Mrs.
E. M. Spackman, Mrs. William A. Ogle,
Mrs. A. J. Brigham, Mrs. Leonard E.
Curtis, Dr. A. C. Magruder, Dr. O. R.
Gillett, Mrs. Florence Halvey, Mrs. J.
G. Shields, C. M. Cole, Dr. F. C. Lee-
lin, Dr. J. Allen Smith, Dr. F. S. Mc-
Kay.

CARNIVAL CO. CARRIES BIG LIST OF ATTRACTIONS

W. O. W. Headed of Success by
Having Secured Patterson Shows.
Big Crowd Expected at Opening

A big crowd is expected at the open-
ing night.

That the Woodmen of the World
will have a successful carnival next
week has been assured by the list of
attractions that Mr. L. P. Chadwell,
advance agent for the Patterson shows,
has announced will be in Colorado
Springs next week. Following is the
list of shows which they will have here
next week: Trained Animal show,
Noma, Tango Way, Jangleland An-
imal, Auto, Auto Drome arcade, Maid of
the Mist, Loria, 100-g-bible, The
Mite, Ferris wheel and merry-go-
round.

The fellow who won't take his kit
out to see the carnival at what may
be technically termed a poker table
that is the way the game looks at it.

Aside from that, the fellow who
loses his girl at the carnival and kicks
about it is a longer for he can steal
some other fellow's girl.

While that is not the exact situa-
tion in detail, still it covers a good
many points of the carnival spirit, and
will work out to general satisfaction in
the big crowds that have been visiting
the Patterson shows, exhibiting on the
east side of town.

The Patterson people are playing
here under the auspices of the Eagles
club carnival committee, and appears
to be one of the cleanest and best at-
tractions that has visited the city in
years and there is most any sort of
an entertaining attraction on the
grounds that one would desire during
the course of an evening.

No complaint can be registered
against the utility of the show, and
the feature items of the aggregation
are crowd-pleasers and no mistake, and
are worth the money.

With the big wheel running, bands
playing, barkers shattering the atmos-
phere with vociferous contortions and
disruptions that would convey to the
crowd that there is something

THE DAY'S HAPPENINGS IN SPORT CIRCLES

Edited for THE GAZETTE by T. W. Ross

NEWS FROM EVERY CORNER OF THE WORLD

TIGER SQUAD LEAVES TODAY FOR OPENING OF CONFERENCE SEASON AGAINST UTAH

Here are seven veteran Tigers who will be factors in the play ing against Utah Saturday at Salt Lake City. From left to right they are: "Dit" Van Stone, who is showing up wonderfully at right end; Esmail, the smashing right halfback and a power on defense; Kramer, captain and field director, whose handling of the forward pass is something worth while; Harry Balch, the quarterback for the "dreadnought" backfield; Jack Taylor, the best halfback in the conference; "Shorty" Ross, quarterback for the light backfield; Rufus Mimmack, center.

COACH ROTHGEB WILL ACCOMPANY TEAM TO SALT LAKE; SAYS LINEUP IS UNCERTAIN

Men Are Numbered for Battle: Coach Tells Men They Will Have to Fight Twice as Hard as if Game Was at Springs; All Men in Good Shape; College Plans Demonstration Today

"You're going to have twice as hard a time beating Utah at Salt Lake as you would at Washburn field. We have a better team than last year, and I think Utah's team is not as good, but if we beat that bunch of Mormons, we've got to fight every minute. We are going out there with the idea of winning this badly, but we've got to fight to do it."

Coach Rothgeb last night on Washburn field, when he called his squad and sent him after the final practice before the Utah game. The coach said he did not know what lineup he would use in the game, and he meant it. The situation is a puzzling one, and last night's dress rehearsal did help solve it.

The Tigers leave this morning on the train en route to the Great Salt Lake. The Tigers will have football drilled into their heads by Coach Rothgeb most of the day. There will be several sessions, the signals will be gone over, methods of attack and defense analyzed and questions answered. Tomorrow afternoon at Salt Lake City the Tigers will have a short signal drill on Cummings field.

TERRORS TO PLAY GRAND JUNCTION THANKSGIVING

Meet Freshmen Tonight and Will Have to Hustle to Beat Them; Schedule Is Nearly Filled

TERROR SCHEDULE
October 17—North Denver at Washburn field.
October 24—South Denver at Washburn field.
October 31—Aggie freshmen at Fort Collins.
November 7—Sacred Heart at Washburn field.
November 14 or 21—Boulder Preps at Boulder.
November 28—Grand Junction at Grand Junction.

This afternoon at Washburn field the Terrors will mix things up with the Colorado college freshmen and the affair should prove a battle royal. The freshmen during the last few days have been making soft falling places for the big Tigers and they have been coached until they look like tough opposition for Coach Cogsdill's warriors.

Arrangements have been practically completed for a game on Thanksgiving with Grand Junction High school. The western slope lads last year won the championship of their division and look like they will repeat this year. If the Terrors win all their interscholastic contests the Grand Junction battle will be for the state championship.

ALL-STAR BASEBALL TEAM DROPS MANY OF THE OLD STARS

GRANT AND RICE BEST ALL-AROUND CLUB IN WORLD

Puts Schang as Catcher but Did It Before World's Series

By GRANTLAND RICE, IN COLLIERS.

It was once a sacrifice to leave Nap Lajoie and Hans Wagner off any all-star team. But today they are among the "old guys who have fallen." It is in this frame of mind that we come to our all-star selection from baseball's past. If, for example, we were asked to name the two greatest pitchers now in the game, we should say Christy Mathewson and Walter Johnson. Mathewson we believe to be the greatest pitcher of all time. But if we were asked to name the four pitchers who did the best all-around work through the last year we would name neither. Both were good—but both were below normal standards and both were outpitched by at least four or five others—and possibly a good many more. This is in no sense a statement of a belief that Matty and Johnson are to be classed with "old guys who have fallen." Neither has drifted far away from the spotlight. Mathewson is still the old master—the wisest, brainiest pitcher that ever lived. Johnson is still a great, marvelous pitcher with a great heart and a wonderful arm. But 1914 is not 1912 or 1913.

Only 1914 Records.
In compiling this club we have made a mental erasure of all seasons that lie behind last April. We still believe that Jimmy Archer is the greatest catcher in baseball—but not through 1914, on account of injuries and other disabilities. So we have tried to get away from the rubber stamp all-Americans—from the annual process of picking out about the same people through what they have done for 15 years, rather than for what they have accomplished through the season under immediate discussion. It is our belief that when a new crop arrives he should be given his place—for that year at least.

Catchers.
In selecting our catchers, we laid out the following array to pick from—Schnitz of the Athletics, Archer and Bresnahan of the Cubs, Wingo and Snyder of the Cardinals, Schalk of the White Sox.

Of all these the most brilliant catcher is Jimmy Archer of the Cubs. But Archer was injured and out of the game a big part of the season and of less value to his club than Roger Bresnahan, who had a fine year in all departments.

The Outfield.
No one has yet come forward to drive Ty Cobb and Tris Speaker from any all-star outfield of the game. Cobb is out of it, as is Speaker.

All-Star Selection

Catcher — Schang, Philadelphia (American).
Pitchers — James, Boston (National); Alexander, Philadelphia (National); Tetreau, New York (National); Bender, Philadelphia (American); First base — Collins, Philadelphia (American).
Second base — Collins, Philadelphia (American).
Third base — Baker, Philadelphia (American).
Left field — Burns, New York (National).
Center field — Speaker, Boston (American).
Right field — Cobb, Detroit (American).
Utility — J. Miller, St. Louis (National).

the season, but he worked in over 50 games, and while in action showed again that there was only one Ty. On the thirty-first of August Cobb was fourth in batting, with an average of .344. Collins had .336, Jackson, .332 and Holthead, .323. It seemed for a brief bit that the Georgia ghost, after leading his league seven years at bat, was to be hauled down at last. But on the fifteenth of September, two weeks later, Cobb was batting .386, 50 points beyond his closest rival. He literally tore way through all opposition, swept his rivals back, and left them so far in the rear that what promised to be a great batting contest turned out to be a farce.

Speaker had another Speaker year. The Red Sox star batted over .330, fielded with all his usual brilliancy, and did fine work around the bases. Joe Jackson, holder of the all-star outfield job with Cobb and Speaker, was not so fortunate. In our opinion George Burns of the Giants did better work than the Cleveland slugger. Jackson outbatted Burns, but there is no comparison in favor of the Carolina Krump gun. Burns stole only 15 bases. Burns led the National league with over 100 steals. Jackson scored less than 10 runs. Burns scored over 100. Burns led his league in stolen bases and in runs scored. He was next to Collins in both circuits. In addition to this he proved to be a brilliant outfielder with a wonderful range and a wonderful arm.

The Pitchers.
Here, as Mr. Hamlet said before our day, is the rub. We realized early that the good old days were gone when one might shut his eyes and name Mathewson, Johnson, and Walsh without a further thought—and with no chance for a mistake. An opinion that stood for one hour looked foolish the next. So we interviewed a number of managers and umpires to have the tangle unraveled. But here also we found conflicting opinions.

So we gathered up the opinions expressed by all, added our own and then dived headlong into the records for the year's work. To begin with, the list, even after we had cut it repeatedly, was a formidable one. From the National league we had Alexander, Tetreau, Mathewson, James, Rudolph, Tyler, Doak, Salter, Vaughn. From the American league we drew Bender, Plank, Leonard, Caldwell, Johnson, and Mitchell among others. Then arose the problem—how can anyone pick an all-star cast and leave out Christy Mathewson, the miracle man, and Walter Johnson, the siege gun? To which query another voice whispered: How can you pick Matty and Johnson when others pitched better ball throughout the year? We first took up the case of Mathewson. Up until August Matty had won 15 games and lost four. Then the Giants broke and slipped—but Matty shipped with them. He had many

Johnson and Mathewson Left Out of Pitchers Selected

games kicked away. But in others he was hit hard. Of his last 10 games, when the Giants were fighting with their backs to the wall, he won but two and lost eight. And in many of these he was assaulted with vigor. It is true the Giants were slipping—but the avalanche that overwhelmed Matty and Marquard found Tetreau impregnable. In one of the mid-September games, when the Giants were still hanging on, Tetreau faced the Cubs. New York made seven errors back of Tetreau that day, but he held the Cubs to three scattered hits and won. Four days later St. Louis beat him. But Tetreau held the enemy to two hits. Then we took up the case of Johnson. We found that in many instances, his support had been both in the field and at bat. But we also found that Johnson was far below his past form—that, in numerous games, he had been battered severely or had been unusually wild. 1914 was clearly an off year for the blond shrapnel. His work was not as good as Matty's upon an average.

Caldwell Lost Chances.
Ray Caldwell might have been considered, for he proved himself to be one of the greatest pitchers of the year. But Caldwell broke training rules constantly, refused to be disciplined, and finally ended the year in disgrace. He should have been upon a par with the greatest slayers of all time. But it takes something more than a great arm to make a great pitcher.

There was the case, too, of Bill Doak, the young Cardinal star, who left the league almost the entire year. Doak is a fine pitcher, and one to be ranked right at the top. It is hard, too, to cast away such pitchers as Dick Rudolph of Boston and Ed Plank and Leonard.

Next to Alexander, we picked Bill James of the Boston Braves—a powerful youngster who last season was just starting. James, Rudolph and Tyler held the Braves up in the fight. The greatest of these was James. He worked in nearly 50 games, and when Boston was fighting hardest to overtake the Giants, and later to protect their lead, it was James upon whom Stallings depended more than any other man.

World's Champs Take Their Coin and Depart

Evers Made \$40,000 During Past Season

Beantown Banquets Title Holders. After Which Many Leave for Homes; Few Will Take Up Vaudeville; Stallings Denies That Team Will Take Trip to South America

BOSTON, Oct. 14.—The Braves, world's baseball champions, as a result of the sensational series with the Philadelphia Athletics, which closed yesterday, were given a banquet and reception tonight by Mayor Curley. Praise for their achievement was sounded by various speakers, and modest acknowledgment was made by Manager George T. Stallings and several of the players.

After the banquet, many of the Braves left immediately for their home cities. They were each given checks today for \$2,708.86 by a representative of the national commission, as their share in the world's series receipts. To most of them this meant about \$5,000 for their season's work.

Capt. Johnny Evers found the season a big one financially. His income the last six months having been more than \$40,000, including a bonus of \$25,000 for his signature to a contract, \$10,000 in salary, a \$3,000 bonus for finishing in first place, and his world's series receipts.

The winter will be spent quietly by most of the men. Several vaudeville agents were at Fenway park today, endeavoring to sign up some of the stars, but it is understood that none was successful.

"Rabbit" Maranville, who was on the stage last winter, may return this year. Manager Stallings said tonight that the statement by Minister Pezet of

PHILADELPHIA, Oct. 14.—Only a handful of loyal fans were at the railway station to greet the former world's champions when the latter arrived today from Boston, where they had lost their title to the Braves. However, there was a long line of disappointed ticket holders at the department stores where the admissions for the game that would have been played had the Athletics succeeded in taking one game were redeemed. More than \$44,000 was refunded by the club's management, but many speculators had purchased tickets at a premium up until the fourth inning of Tuesday's game, somewhat decreasing the profits they had made on tickets for the games played.

Joseph Leslie Bush, who pitched on Monday for the Mack team, was married shortly after his return to Miss Sylvia E. McMahon of Bordentown, N. J. Bush and his bride will leave for Chicago tomorrow, where they will join other members of the Athletics team, who are to tour with the All-Stars.

PACIFIC COAST LEAGUE
Los Angeles, 15; Mission, 1.
San Francisco, 4; Venice, 5.
Portland, 4-7; Oakland, 1-4.

Here's a Real Referee; Stops Bout—No Punch

ST. LOUIS, Oct. 14.—The bout between Jack Dillon, the Indianapolis champion of the middleweight championship, and George "Knockout" Brown of Chicago, scheduled to run 10 rounds here tonight, was stopped in the fourth round by Referee Eddie Randall, who declared there was no contest. After the third round Randall warned the contestants that if they did not put some punch into the affair he would end the fight.

RAIN STOPS SOX-CUB DECIDING GAME OF SERIES

CHICAGO, Oct. 14.—A cold, drizzling rain which started five minutes before game time today caused the postponement of the seventh game of the series for the city championship between the local clubs of the American and National leagues. The series remains tied at 3 and 3.

This photograph, which is among the few recently issued by the German censor of photographs, shows a Belgian war dog, which was captured by the Germans in a recent battle. The dog has been made a pet of the German soldiers.

Two Daughters Given Health

It is with pleasure that I write you a testimonial of the health of my two daughters, who have been cured of their ailments by the use of Dr. Pierce's Pleasant Pellets.

Dr. Pierce's Pleasant Pellets

One to three tiny granules to a dose. Regulate stomach, liver and bowels. Pleasant to take as candy.

WOMEN FORM LEAGUE TO AID DESTITUTE BELGIANS

Council May Repeal Dog Muzzle Measure

It is possible that a measure of the kind, which would require the muzzling of dogs, would be passed by the council.

CHICAGO MARKET

CHICAGO, Oct. 14.—Fresh activity in the market today, largely because of high prices at Liverpool and owing to a sharp drop in receipts at Winnipeg. The market closed strong, at 2 1/2c above last night. Corn 1 1/2c to 1 3/4c, net, oats 1 1/2c to 1 3/4c, provisions 1 1/2c to 1 3/4c. Heat traders seemed to couple the market advance and the continuation of Canadian supplies. Arrivals at Chicago were only 300 cars today as last 1,200 cars a year ago and only cars in sight for tomorrow. Under conditions reports found ready buyers for the stock of wheat in the west to a much greater extent than usual shown by the visible supply, and that country elevators correspondingly bare. It was also noted that the circumstances were far in the west and Minnesota. Shippers led the wheat buying here in the start and their activity was more noticeable on account of high estimates of transatlantic crops decrease in the European visible supply.

Geography of the War Zone

Geographic Society Issues War Geography Primer

The National Geographic society is issuing in installments a primer of European war geography. The locations and descriptions of many places frequently mentioned in the war news have already been printed. Others follow:

ST. MIHIEL—A French town on the Meuse river, 20 miles east of south of Verdun and 23 miles from the Lorraine border, which figured prominently in the quarrels between Louis XIII and Charles IV, duke of Lorraine, in the seventeenth century. Charles had incurred the wrath of Louis by harboring French malcontents within his duchy. By the treaty of Vic of 1661, Charles agreed to drive from his duchy the malcontents of France, but he broke his word and French troops took the town in 1678. The town also possesses a castle built in 1290.

SENE—A town of Russian Poland, 23 miles northeast of Semy, near a lake which is the headwater of the Semy, an affluent of the Niemen. The town has a population of approximately 7,000 people, who are engaged in the raising and minor manufacturing pursuits. It was formerly the seat of the important seignory of the prince of Seny.

UNGER—A town of northern Hungary, on the Danube river, 23 miles southwest of Budapest. The town is an active workshop for the district. It is in the valley of the Danube, and the cultivation of vineyards is the chief pursuit. Unger has a large castle on a lofty eminence overlooking the town. Its population is about 10,000.

NESTLE—A village in England, three miles southeast of Southampton, on the west shore of Southampton water. Henry III founded a Cistercian abbey here in 1241, and its extensive ruins are the chief point of interest in the town today. The gatehouse was transformed into a fort at the time of Henry VIII. Nestle hospital for wounded soldiers, one mile southeast of the abbey, was built in 1894 after the Crimean war. It is the principal military hospital in Great Britain giving accommodations for upwards of 1,000 patients.

TORQUAY—A town in England, 23 miles south of Exeter. Its principal reputation is as a winter residence. Its temperature seldom rises as high as 70 degrees in the summer, or falling below the freezing point in winter. In the neighborhood evidence of Roman occupation has been found. After the defeat of the Spanish Armada, Don Pedro's galley was brought into Torbay and William, Prince of Orange landed at Torbay in November, 1688. Until the middle of the nineteenth century the place was an insignificant fishing village. In the town are a number of marble-polishing works, terra cotta ware of fine quality is manufactured from a deposit of clay nearby. The town has a population of about 30,000.

MIŁAWA—A town of Russian Poland, six miles from the East Prussian border, 47 miles northwest of Warsaw and the same distance northeast of Plock. The town is on the main line of the railroad running from Danzig to Warsaw, and is the last station of any importance north of Warsaw inside the border. Its population is about 12,000. It has extensive cloth and leather goods manufacturing.

BERLIN DIDN'T CELEBRATE THE CAPTURE OF ANTWERP

News Received With Quiet Feeling of Satisfaction, but There Was No Formal Demonstration

BERLIN, Oct. 14.—By wireless to Sayville, L. I., Oct. 14.—The news from Antwerp was received last evening. No extra editions of the papers announced the fall of the Belgian town, but the fact became generally known and the streets were filled with people carrying flags. There was no formal demonstration, only a quiet feeling of satisfaction over the achievement of German arms.

It is commonly believed here that the army will now be able soon to force the French lines. Emperor William personally telephoned the news about Antwerp to the empress.

It is officially stated that the bomb thrown by British airmen on the Zeppelin shed at Düsseldorf caused comparatively little damage.

King Albert of Belgium, in order to avoid useless bloodshed, is said here to have intended to surrender Antwerp but was prevented by the British, who led the assault before the surrender.

The following has been given to the press from official sources:

The coadjutor of the Daily Chronicle states that the Belgian government after the fall of Antwerp planned to go to London.

The Baseler Nachrichten states that the Matin of Paris publishes pictures of the cathedral of Rheims taken after the bombardment and showing that the edifice was only slightly damaged.

The Baseler Nachrichten deduces that the French official statement of the destruction of the cathedral is thus proved untrue.

An official telegraphic agency of Petrograd admits that the Russians suffered great losses in men and guns during the September fighting with Austro-Hungarians.

Reuter's Telegram company reports from Pekin that the Japanese have occupied the German island of Yap.

Ground Broken for Two New \$3,000,000 East River Tunnels

NEW YORK, Oct. 14.—Ground was broken yesterday afternoon for the two new tunnels under the East river, which are to connect Manhattan and Brooklyn. The tunnels will connect Whitehall street, Manhattan and Montague street, Brooklyn, as a part of the so-called new dual system of rapid transit and will cost \$3,974,899.50.

The total length of the tunnels will be 6,800 feet. The distance between the shafts will be 4,095 feet, and between the established piers, 2,800 feet. The maximum depth from mean high water to the base of the rail will be 87 feet.

The plans call for the construction of a third tunnel under the East river that will join the Fourteenth street section of Manhattan with Brooklyn. It is estimated that the work will take three and one-half years. Still another downtown subway tunnel will extend from Old Slip, Manhattan, to Clark street, Brooklyn. The works together constitute one of the largest contracts ever let in New York city. The total cost will be more than \$12,000,000.

Exports of Cotton Fell Off Million Bales in 2 Months

WASHINGTON, Oct. 14.—Some idea of the extent to which the cotton growing industry has suffered as a result of the European war was disclosed today in a census bureau report, showing that for the first two months of the cotton year exports fell off more than a million bales compared with the same period last year.

Domestic consumption of cotton during the same period decreased more than 75,000 bales. Imports of foreign cotton however increased, 42,462 bales having been brought from abroad, compared with 15,234 bales last year. Exports of 13,241 bales, or 3,888 bales more than a year ago.

SUGAR

NEW YORK, Oct. 14.—Raw sugar quiet, molasses \$3.25, centrifugal, \$4.02, refined quiet.
